Summary

This application is a request by Aaron Hickman, PLS, of Causseaux, Hewett, & Walpole, Inc., agent for Alachua Development Co., LLC, applicant and property owner, for a replat of Lots 40, 48, 55, and 61 of Baywood Phase 1B, according to the plat thereof as recorded in Plat Book 28, Pages 78 – 79 of the Public Records of Alachua County, Florida.

The plat of Baywood Phase 1B was approved by the City in December 2009. The original plat consists of a total of 34 residential lots. The applicant has proposed to replat Lots 40, 48, 55, and 61 to change the setbacks of the lots to be consistent with a recent Land Development Regulations (LDR) Text Amendment which amended Subsection 5.2.2(A)(7)(c), pertaining to the measurement of setback on corner lots. Amended Subsection 5.2.2(A)(7)(c) states that a front yard setback shall be required on the road frontage facing the primary building's front building façade. For all other frontages, the required front yard setback shall not be less than the minimum side yard setback and shall not conflict with existing public utilities easements.

This application will establish setbacks on the aforementioned lots which are consistent with amended Subsection 5.2.2(A)(7)(c.) There are no proposed changes to existing lot lines, and the replat will not result in the creation of any new lots. In addition, the proposed replat would not result in any changes to the existing infrastructure within Phase 1B of Baywood. The only change pertains to the minimum required setbacks on the aforementioned lots as and described above.

Compliance with the City's Land Development Regulations

Subsection 2.4.10(F)(1)(b) states that the revision of single lots within an existing platted subdivision constitutes a minor subdivision. The revisions of setback lines proposed by this application are consistent with the provisions of Subsection 2.4.10(F)(1)(b), and the replat has been reviewed for consistency with Subsection 2.4.10(F.)

Pursuant to Section 2.4.10(F)(2), minor subdivisions are exempt from the requirements for a subdivision preliminary plat and construction plans, but must obtain final plat approval. Subsection 2.4.10(F)(3) states that a minor subdivision shall be approved on a finding that the application complies with the standards of Article 7, Subdivision Standards, all other relevant provisions of the LDRs, and all other relevant City ordinances and regulations. An analysis of the application's consistency with these standards has been provided within the Staff Report to the Planning & Zoning Board, dated August 13, 2013.

Planning & Zoning Board Decision

The Planning and Zoning Board held a public hearing on August 13, 2013, and found the application to be consistent with the Comprehensive Plan and in compliance with the Land Development Regulations and voted 4-0 to transmit the replat to the City Commission with a recommendation to approve.

SUMMARY

This application is a request by Aaron Hickman, PLS, of Causseaux, Hewett, & Walpole, Inc., agent for Alachua Development Co., LLC, applicant and property owner, for a replat of Lots 40, 48, 55, and 61 of Baywood Phase 1B, according to the plat thereof as recorded in Plat Book 28, Pages 78 – 79 of the Public Records of Alachua County, Florida.

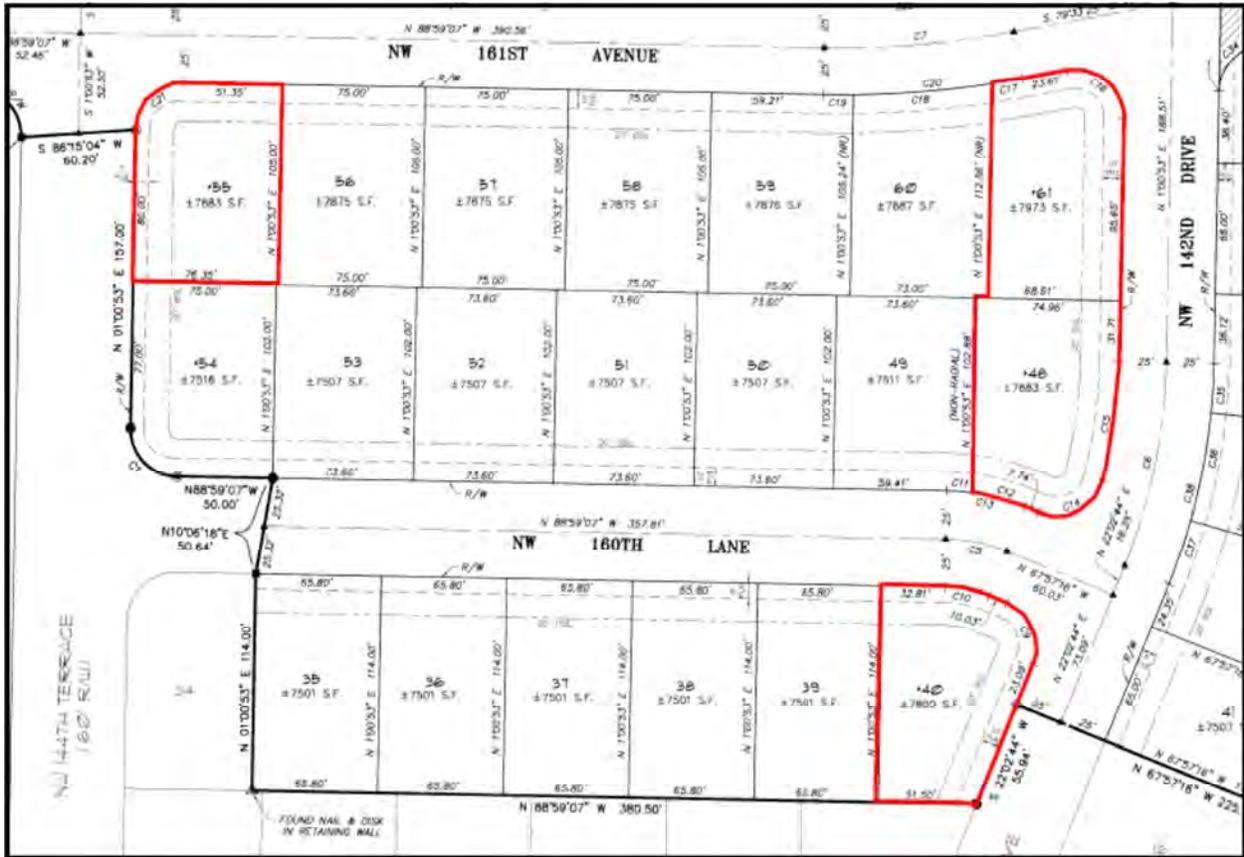

The plat of Baywood Phase 1B was approved by the City in December 2009. The original plat consists of a total of 34 residential lots. The applicant has proposed to replat Lots 40, 48, 55, and 61 to change the setbacks of the lots to be consistent with a recent Land Development Regulations (LDR) Text Amendment which amended Subsection 5.2.2(A)(7)(c), pertaining to the measurement of setback on corner lots. Amended Subsection 5.2.2(A)(7)(c) states that a front yard setback shall be required on the road frontage facing the primary building's front building façade. For all other frontages, the required front yard setback shall not be less than the minimum side yard setback and shall not conflict with existing public utilities easements.

This application will establish setbacks on the aforementioned lots which are consistent with amended Subsection 5.2.2(A)(7)(c.) There are no proposed changes to existing lot lines, and the replat will not result in the creation of any new lots. In addition, the proposed replat would not result in any changes to the existing infrastructure within Phase 1B of Baywood. The only change pertains to the minimum required setbacks on the aforementioned lots as and described above.

Map 1. Baywood Phase 1B Plat (Lots to be Replatted Highlighted in Red)

Map 2. Baywood Phase 1B Plat Depicting Lots to be Replatted (Highlighted in Red)

Subsection 2.4.10(F)(1)(b) states that the revision of single lots within an existing platted subdivision constitutes a minor subdivision. The revisions of setback lines proposed by this application are consistent with the provisions of Subsection 2.4.10(F)(1)(b), and the replat has been reviewed for consistency with Subsection 2.4.10(F.)

Pursuant to Section 2.4.10(F)(2), minor subdivisions are exempt from the requirements for a subdivision preliminary plat and construction plans, but must obtain final plat approval. Subsection 2.4.10(F)(3) states that a minor subdivision shall be approved on a finding that the application complies with the standards of Article 7, Subdivision Standards, all other relevant provisions of the LDRs, and all other relevant City ordinances and regulations. An analysis of the application’s consistency with these standards has been provided within this report.

CONSISTENCY WITH THE COMPREHENSIVE PLAN

The Goals, Objectives, and Policies (GOPs) identified below are provided to establish a basis of the application's consistency with the Comprehensive Plan. There may be additional GOPs which the application is consistent with that are not identified within this report. An evaluation and findings of consistency with the identified GOPs is also provided below.

Future Land Use Element

GOAL 1: Future Land Use Map 2025:

The City of Alachua shall maintain a Future Land Use Map in order to effectively guide development in a sustainable manner and to ensure economic prosperity and stability while maintaining a high quality of life for all of its present and future citizens.

Objective 1.2: Residential

The City of Alachua shall establish three Residential land use categories to ensure an orderly urban growth pattern that makes the best use of available lands for residential development.

Policy 1.2.b: Medium density residential (4 to 8 dwelling units per acre): The medium density residential land use category allows residential development at a density of 4 dwelling units per acre to 8 dwelling units per acre, as well as small-scale neighborhood commercial and mixed use developments. The following uses are allowed in the medium density land use category:

1. Single family, conventional dwelling units and single family, attached dwelling units;
2. Accessory dwelling units;
3. Manufactured or modular homes meeting certain design criteria;
4. Mobile homes only within mobile home parks;
5. Duplexes and quadplexes;
6. Apartments and townhomes;
7. Live/work units;
8. Residential Planned Unit Developments;
9. Traditional Mixed-use Neighborhood Planned Developments;
10. Supporting community services, such as schools, houses of worship, parks, and community centers

Evaluation and Findings of Consistency with Goal 1, Objective 1.2, and Policy 1.2.a: The subject property has a Medium Density Residential FLUM Designation, which permits a maximum density of eight (8) dwelling units per acre. The zoning of the subject property is Residential Single Family – 6 (RSF-6), which permits a maximum density of six (6) dwelling units per acre. The proposed replat is consistent with the Medium Density Residential FLUM Designation and RSF-6 zoning district.

Objective 2.5: Open Space Standards:

The City shall utilize open space requirements to preserve the rural character of Alachua, protect natural resources, and provide spaces for people to recreate and gather.

Policy 2.5.a: There shall be a minimum of 10% percent open space required. The City shall establish incentives for the provision of open space beyond minimum requirements.

Evaluation and Findings of Consistency with Objective 2.5 and Policy 2.5.a: The Baywood subdivision has identified open space areas on the preliminary plat and exceeds the minimum 10% open space requirement

Housing Element

Objective 1.1: Provision of Safe, Affordable, Quality Housing

The City shall facilitate the provision of safe, sanitary, healthy and affordable, quality housing, to accommodate all present and future residents at all income and age levels, including those with special needs, through a variety of housing types, preferably within mixed-income neighborhoods.

Evaluation and Findings of Consistency with Objective 1.1: The proposed replat will allow for the accommodation of a variety of housing types.

Conservation & Open Space Element

Policy 1.2.a:

The City shall ensure that land use designations, development practices and regulations protect native communities and ecosystems, and environmentally sensitive lands.

Policy 1.3.e:

The City's land use designations shall provide for the protection of threatened and endangered species.

Evaluation and Findings of Consistency with Policy 1.2.a and 1.3.e: The subject property does not contain any environmentally sensitive lands, and is not located adjacent to large tracts of land or land designated for conservation. The development therefore will encourage development practices which provide for the protection of native communities and ecosystems.

COMPLIANCE WITH LAND DEVELOPMENT REGULATIONS

Subsection 2.4.10(F)(3) of the City's Land Development Regulations (LDRs) establishes the standards with which all minor subdivisions must be found to be compliant. Staff's

evaluation of the application's compliance with the applicable standards of Subsection 2.4.10(F)(3) is provided below.

(3) *Minor Subdivision Standards*

A Minor Subdivision shall be approved on a finding that the application complies with the standards in Article 7: *Subdivision Standards*, all other relevant provisions of these LDRs, and all other relevant City ordinances and regulations.

Evaluation: The proposed Minor Subdivision consists of a replat of Lots 40, 48, 55, and 61 of Baywood Phase 1B, which is a subdivision approved by the City in December 2009. Baywood Phase 1B is recorded in Plat Book 28, Pages 78 – 79 of the Public Records of Alachua County, Florida.

The proposed Minor Subdivision would change the setbacks of the aforementioned lots. The amended setbacks would be consistent with a recent Land Development Regulations (LDR) Text Amendment which amended Subsection 5.2.2(A)(7)(c), pertaining to the measurement of setback on corner lots. Amended Subsection 5.2.2(A)(7)(c) states that in the case of corner lots, a front yard setback is required on the road frontage facing the primary building's front building façade. For all other frontages, the required front yard setback cannot be less than the minimum side yard setback and cannot conflict with existing public utilities easements.

This application will establish setbacks on the aforementioned lots which are consistent with amended Subsection 5.2.2(A)(7)(c.) There are no proposed changes to existing lot lines, and the replat will not result in the creation of any new lots. In addition, the proposed replat would not result in any changes to the existing infrastructure within Phase 1B of Baywood. The only change pertains to the minimum required setbacks on the aforementioned lots as described above.

Based upon the preceding information, the application complies with all relevant standards of Article 7, Subdivision Standards.

PUBLIC FACILITIES IMPACT

Article 10 of the City's LDRs defines a "de minimis impact" as, "an impact of not more than ten average daily trips on the affected road from an existing parcel of record, contiguous commonly-held parcels, or a development proposal unless the impact exceeds the adopted level of service of a designated hurricane evacuation route."

The proposed Minor Subdivision will not result in the creation of any new lots, therefore, there are no additional public facilities impacts generated by the development. Since the proposed Minor Subdivision will not result in the generation of any new average daily trips on any roadway segments, the impacts to public facilities are therefore de minimis, and, as provided in Section 2.4.14(C)(3) of the City's LDRs, the development is exempt from concurrency requirements.

In re: Proposed Replat of Baywood---Phase 1B, Lots, 40, 48, 55 and 61 (the "Property").

Dear Ladies and Gentlemen:

Pursuant to the requirements of Florida Statute 177 and of the City of Alachua for the platting of lands in Alachua County, Florida, and the recording of said plats, this letter is written as a statement of the condition of the title of the Property as of the date of this opinion. I have examined the legal description for the proposed Replat referenced above, a copy of the legal is attached hereto as Exhibit "A" and find it to be accurate and further find that title to the Property as of the date of this opinion is as follows:

1. Title is vested in Alachua Development Co., LLC, a Florida limited liability company.
2. Mortgage in favor of Great Florida Bank recorded in O.R. Book 3168, Page 1298, Public Records of Alachua County, Florida.
3. Assignment of Leases, Rents and Profits in favor of Great Florida Bank recorded in O.R. Book 3168, Page 1320, Public Records of Alachua County, Florida.
4. Financing Statement in favor of Great Florida Bank recorded in O.R. Book 3168, Page 1330, Public Records of Alachua County, Florida.
5. The loan from Great Florida Bank and the documents set forth in 2., 3. and 4 above referencing the same have been assigned to Capital City Bank by assignment recorded in O. R. Book 3881, Page 644 of the Public Records of Alachua County, Florida, and Capital City Bank is now the owner and holder of this loan and the documents evidencing the same and it the mortgagee of record.

**Re: Review of Baywood – Phase IB
Lots 40, 48, 55, and 61 Replat**

Dear Mr. Tabor,

I have reviewed the Final Plat of “Baywood – Phase IB Lots 40, 48, 55, and 61 Replat” for conformity to Florida Statutes Chapter 177, Part I, Platting and find it to be in conformance with all Sections and Subsections except those listed and following hereon:

Subsection 177.081

(2)&(3): The plat must contain a dedication of the Public Utility Easements to the public for the uses and purposes thereon stated.

Note: The Mortgagee’s approval on the plat refers to the “dedication shown hereon” which does not appear on this plat.

Subsection 177.091

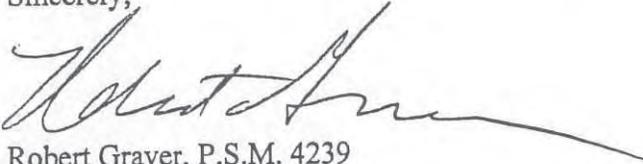

- (6) There must be a bearing reference to a well established and monumented line. (In my opinion, Surveyor’s Note 1 is sufficient but does not conform strictly to this rule.)
- (7) Permanent Reference Monuments must be placed at every corner or change in direction with an appropriate symbol or designation prior to platting.
- (9) Monuments must be placed at all lot corners before the transfer of any lot or Bond expiration.
- (12) There must be an adoption and dedication with notary.

- (17) Identify contiguous properties by Subdivision title, plat book and page, west of Lot 55 and east of Lot 40.

The replatting information must be shown under the name of the plat.

Note: I must still review the title opinion to be sure the legal description on the plat is the same and that all easements and other matters are shown.

Bob,

As per our conversation, I am sending a plat to you and requesting that the plat be reviewed for consistency with Chapter 177, Florida Statutes. This plat consists of a replat of Lots 40, 48, 55, and 61 of Baywood Phase 1B. There are no changes to lot lines proposed, and the only change relates to the setbacks on each of the lots. I have requested that the developer provide a title opinion, and will provide it to you as soon as it is received. While I understand that you cannot complete your review until you have reviewed the title opinion, please provide all other comments as soon as possible.

I am also sending a copy of the most recent version of the plat of Baywood Phase 1C, which you recently reviewed. As you will recall, all of your previous comments regarding this plat have been addressed. The only change on this plat relates to the setback on corner lots.

If you have any questions regarding these items, please contact me.

Re: Baywood Phase 1B Minor Subdivision Application

Dear Ms. *Kathy* Winburn:

On behalf of our client, Alachua Development Company, LLC, we submit this Minor Subdivision application package for Baywood Phase 1B. As discussed with City staff, this application is being submitted to reflect the new corner lot setbacks on lots 40, 48, 55, and 61 required by proposed changes to the Land Development Regulations (LDR). The LDR changes were approved by the Planning & Zoning Board on July 9, 2013.

The original Phase 1B Plat was approved in December 2009. Impacts to public facilities were previously analyzed and water, sewer, electric, and roadway infrastructure has already been constructed. Since this application will not change the number of lots within Phase 1B, there will not be any additional impacts to public facilities. The proposed changes to lot setbacks are de minimis per LDR Article 10.

The proposed changes to the setbacks for four lots are not a comprehensive plan issue. Therefore, a Concurrency Impact Analysis, Comprehensive Plan Consistency Analysis, or a Public School Generation Form is not required for this application.

The approved single-family residential lots are consistent with the Medium Density Residential Future Land Use (FLU) category and the RSF-6 zoning district. Lots 40, 48, 55, and 61 are also consistent with the development standards outlined in LDR Table 5.1-2, including the revised setback requirements for corner lots.

We trust this submittal is sufficient for your review, recommendation for approval, and presentation to the Board of Adjustment. Please contact me directly if you have any questions or need additional information.
Sincerely,

Causeaux, Hewett, & Walpole, Inc.
