March 29, 2023

The Honorable Mayor Members of the City of Alachua Commission Citizens of the City of Alachua, Florida

Dear Honorable Mayor Coerper:

The Annual Financial Report of the City of Alachua, Florida (the "City") for the fiscal year ended September 30, 2022, is respectfully submitted as required by Florida Statutes. This report was prepared by the City's Finance and Administrative Services Department in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of licensed certified public accountants. The responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the City. We believe the data presented in this report is accurate in all material respects, that it is presented in a manner designed to fairly set forth the financial position as measured by the financial activities of its various funds, and all disclosures that are necessary to enable the reader to gain a general understanding of the City's financial activities have been included.

#### **INDEPENDENT AUDIT**

Purvis, Gray and Company, a firm of licensed certified public accountants, has audited the City's basic financial statements. The goal of an independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence of supporting amounts and disclosures in the basic financial statements; assessing accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an <u>unmodified</u> opinion that the City's basic financial statements for the fiscal year ended September 30, 2022, are presented fairly and in conformity with GAAP.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors. The remainder of this letter provides an overview of the City government, as well as local economic conditions and prospects for the future.

#### **PROFILE OF THE GOVERNMENT**

The City of Alachua is geographically located in North Central Florida. The City's boundaries encompass about 36.5 square miles. Alachua was established in 1884 on a railroad line, after the railroad had bypassed nearby Newnansville, Florida. Alachua got a post office in 1887, and was officially incorporated on April 12, 1905, at which time it had a population of 526 people. According to the University of Florida Bureau of Economic and Business Research (BEBR), the City's population was approximately 10,844 as of September 30, 2022. The City has a charter government structure approved by referendum of the electors pursuant to the Constitution and laws of the State of Florida. The City operates under the City Manager form of government with a commission comprised of an elected Mayor and four elected Commissioners. The elections are non-partisan and each Commissioner represents the entire City.

#### REPORTING ENTITY AND ITS SERVICES

The City provides a variety of services including road maintenance, utility (electric, water and wastewater) services, police, community development, solid waste collection (via contract) and recreational-cultural activities. Fire protection is provided within municipal boundaries by Alachua County and is funded through a county-imposed assessment.

This Annual Financial Report includes the funds of the primary government and the following component units:

 The Community Redevelopment Agency (CRA). The CRA is a separate legal entity created in accordance with Chapter 163, Florida Statutes to carry out community redevelopment activities and is a blended component unit of the City due to the existence of a financial benefit/burden relationship. The City Commission sits as the board of this organization and approves its budget.

#### ACCOUNTING SYSTEM AND BUDGETARY CONTROL

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the

cost of a control should not exceed the benefits likely to be derived therefrom and the evaluation of costs and benefits requires estimates and judgments by management. We believe all internal control evaluations occur within this framework and that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The annual budget serves as the foundation for the City's financial planning and control. All departments and component units of the City are required to submit requests for appropriation to the City's Finance and Administrative Services Department. The City Manager submits to the City Commission a proposed operating budget by fund, except for the General Fund which is at the department level, for the fiscal year commencing the following October 1. The City Commission is required to hold public hearings on the proposed budget and to adopt the final budget no later than September 30, the close of the City's fiscal year. The budget is legally enacted through the passage of a resolution and adoption of the budget document. Management may not make changes to the adopted budget without the approval of a majority vote of the City Commission. Budgets are monitored at varying levels of detail; however, budgetary control is legally maintained at the fund level, except for the General Fund which is maintained at the department level.

#### **MAJOR FUND PRESENTATION**

An important element of the financial reporting model is the focus on reporting significant financial activity by fund type, with emphasis on major funds in both governmental and proprietary fund financial statements. In following GASB 34, the City is required to separate major funds from non-major funds. Only major funds are shown separately in the basic financial statements, while non-major funds are combined together and reported as a single column. Non-major funds are disclosed separately in the combining and individual fund financial statements and schedules section of this report.

GASB requires that the General Fund always be considered a major fund. The statement also requires other governmental and enterprise funds to be shown as major funds if they meet the following criteria:

- Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least ten percent (10%) of the corresponding total of all funds of that category; and,
- Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least five percent (5%) of the total for all governmental and enterprise funds combined.

#### **ECONOMIC CONDITION AND OUTLOOK**

#### LOCAL ECONOMY

The area's economy is expanding as evidenced by the City's growth indicators, particularly, those related to infrastructure (water and wastewater) connections when compared to prior levels. This growth comes as a result of increased demand for utility services. The City continues to pursue increasing the commercial, technology and industrial customer base by attracting firms to locate their enterprises within City limits. This helps create additional jobs and provides for a stable tax base.

The City's major challenges are to provide the infrastructure and services needed to maintain the quality of life, which has attracted considerable growth to our community. History has shown that great emphasis on support systems such as transportation, potable water, wastewater and electric capacity must be balanced carefully with quality of life amenities that include parks, recreation and cultural opportunities in order to maintain the natural beauty and attractiveness of a community. For our City, these natural attributes take shape as tree canopies, and rolling green fields for agriculture, which provide the great atmosphere of North Central Florida living.

#### LONG-TERM FINANCIAL PLANNING

In order to meet the service demands of residents, businesses and visitors, the City continues to address the long-term financing necessary in order to fund capital projects essential to the creation, improvement, enhancement and preservation of public facilities and infrastructure.

The City's Fiscal Year 2021-2022 five-year Capital Improvement Plan (CIP), covering the period from October 1, 2021 through September 30, 2026, has earmarked funding approximately at \$25.1 million for 42 projects throughout the City. Electric utility system projects account for the largest portion of the total Capital Improvement Plan funding at \$6.9 million or 27.56%. The Water utility system projects are the second largest, accounting for \$5.3 million, or 21.09%, and the Wastewater utility system projects are the third largest accounting for \$3.2 million, or 12.95%, of the Capital Improvement Plan.

City utility revenues (capital facility charges, utility charges, etc.) represent the largest share of funding for the five-year Capital Improvement Plan, accounting for 50.4% of the value. Grants represent 28.6% of CIP funding. General government funding for the CIP is 8.3% and the remaining 12.7% of the funding is provided by Federal, State, Local, Tax Increment, assessment, and private sources.

#### **MAJOR INITIATIVES**

#### **ECONOMIC ENVIRONMENT**

The Community Redevelopment Agency (CRA) continued the implementation of the recommendations of the CRA Market Study & Economic Development Implementation Plan. Marketing costs were approximately \$33,269.

The construction of a downtown parking lot construction project began during FY 2021-2022. This parking lot will add 40 parking spaces behind Main Street businesses and include a sidewalk connecting it to downtown businesses. Fiscal year 2021-2022 CRA expenses were \$190,563.

#### TRANSPORTATION

The City's major transportation-related efforts during FY 2021-2022 centered around continuation of normal annual maintenance of City streets. Most of the roadway improvement funding for FY 2021-2022 is being retained to supplement a \$700,000 Community Development Block Grant (CDBG) — Neighborhood Revitalization category grant received for segments of NW 125 St., NW 148 Ave., NW 147 Ln., NW 122 Terr., NW 121 Terr., NW 148 Pl., and NW 147 Pl. This project is expected to begin within the next fiscal year.

#### **GENERAL GOVERNMENT**

In fiscal year 2021-2022, City staff completed the construction and assembly activities related to the placement of a 2,000 square foot maintenance facility at the Hal Brady Recreation Complex. Total project costs were approximately \$120,000. Fiscal year 2021-2022 expenses were approximately \$44,436. The City also purchased the first air-conditioned tractor to be utilized for general ground maintenance activities at a cost of approximately \$42,958.

#### **PUBLIC SAFETY**

The Alachua Police Department (APD) made huge strides towards achieving accreditation from the Commission for Florida Law Enforcement Accreditation. Final evaluation was conducted in July 2022.

While adding two new additional officer positions, APD also continued to upgrade its technology and equipment in order to more efficiently process operations of the department. Equipment purchased included 5 vehicles, body worn and in-car cameras, mobile radios, ballistic vests and tasers. The total cost for these equipment enhancements was approximately \$317,725.

#### **HUMAN SERVICES**

In fiscal year 2021-2022, the City was the recipient of an additional \$66,665 in grant funding from Children's Trust of Alachua County (CTAC). The CTAC is dedicated funding intended to provide for the well-being of children in Alachua County. The City has programmed the funding towards the providing youth enrichment programs for children and \$50,900 of these funds was expended during this fiscal year. Total expenditures on the youth enrichment programs was \$86,665.

#### **RECREATION AND CULTURE**

This fiscal year Recreation and Culture Department continued providing the community with athletic, cultural, and senior programming. These included both musical events and theatre performances at the Legacy Park amphitheater and at the multi-purpose center. Over \$26,000 was expended on these activities to include the provision of Zumba and dance classes. Athletic programming and events included baseball, basketball, football, gymnastics, pickleball, soccer, table tennis, and volleyball.

Additionally, a sport utility vehicle was purchased for \$30,386.

#### **PHYSICAL ENVIRONMENT**

Improvement and expansion of infrastructure continues to be at the forefront of the City's utilities activities. The electric utility completed construction of a second substation. This substation allows energy to be received through Duke Energy transmission lines from multiple wholesale providers. Furthermore, this substation allows for diversification of power sources, redundancy and the necessary infrastructure for future City growth and development. Final construction costs were approximately \$5.18 million.

The water utility began the design of a new wellfield during the fiscal year. This wellfield is anticipated to cost approximately \$5.4 million and is utilizing both Florida Department of Environmental Protection (FDEP) and American Rescue Plan Act (ARPA) funding. The wastewater utility began design of 16-inch force main sewer line that is to extend from Lift Station #1 to the Alachua Water Reclamation Facility (AWRF).

Additionally, the Mill Creek Sink stormwater quality improvement project was completed. This project created and constructed a natural filtration system to clean runoff water from Interstate-75 and the surrounding area. This water runoff eventually winds up in the Florida Aquifer. This project's total cost was approximately \$1.4 million.

#### **RELEVANT FINANCIAL INFORMATION**

The readers of this report should also review the MD&A. The MD&A gives basic financial information about the City and a summary of the City's activities. The Government-wide Financial Statements, consisting of a Statement of Net Position and a Statement of Activities, offer an across-the-board financial depiction of the City, divided between governmental and business-type activities.

These statements are prepared by distinguishing functions of the City that are principally supported by taxes and intergovernmental revenues from other functions that are intended to recoup all or a sizeable portion of their costs through user fees and charges. The fund financial statements provide data about the City's funds and are created from the City's accounting reports. Governmental funds are accounted for on the modified accrual basis, where revenues are recorded when they become measurable and available, and expenses are generally recorded when the related fund liability is incurred, except for debt service expenditures, compensated

absences, and claims and judgments. Proprietary funds are accounted for using the accrual basis of accounting. Under this method, revenues are recorded when they are earned and expenses are recorded when the related liability is incurred. This City's fiscal year is from October 1 through September 30.

#### AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Alachua for its Annual Financial Report for the fiscal year ended September 30, 2021. This was the twelfth consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we will submit it to the GFOA to determine its eligibility for yet another certificate.

The preparation of the Annual Financial Report was made possible through the efficient, dedicated and professional efforts of the entire staff of the Finance and Administrative Services Department. The substantial amount of year-end closing procedures required prior to the audit, could not have been completed without much hard work and personal sacrifice. Each member of the department has our sincere appreciation for the contributions made to assist in the preparation of this report. Sincere appreciation is also expressed to the Mayor, Commissioners, Department Directors, and all City employees for their cooperation and assistance in all matters pertaining to the financial affairs of the City.

Respectfully submitted,

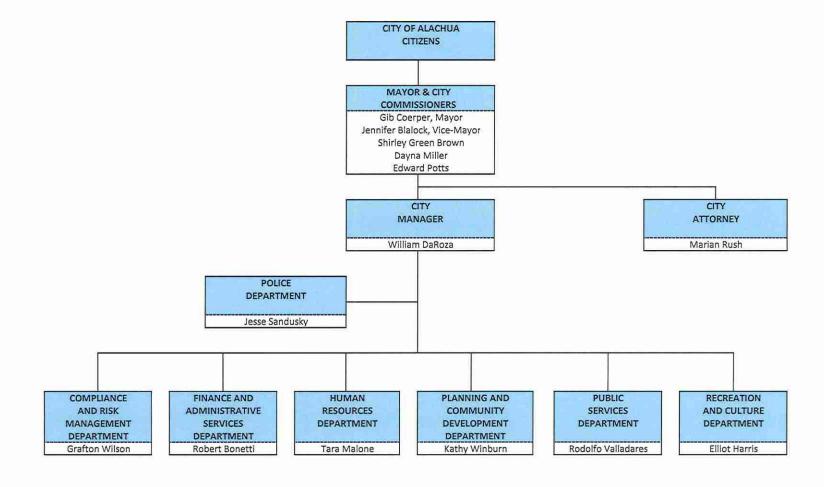

mileek

#### **CITY OF ALACHUA GOVERNMENT**

### **PURVIS GRAY**

#### INDEPENDENT AUDITOR'S REPORT

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

#### **Report on the Audit of Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Alachua, Florida (the City), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### CERTIFIED PUBLIC ACCOUNTANTS

Gainesville | Ocala | Tallahassee | Sarasota | Orlando | Lakeland | Tampa purvisgray.com

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

#### INDEPENDENT AUDITOR'S REPORT

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the City's ability to continue as a going concern for a reasonable period
  of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of change in other postemployment benefit and related ratios, schedules of proportionate share of the net pension liability, and schedule of contributions on pages 4 through 15 and 58 through 63 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

#### **INDEPENDENT AUDITOR'S REPORT**

financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual non-major fund financial statements and budgetary schedules, and schedule of state financial assistance projects, as required by Chapter 10.550, *Rules of the Auditor General*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and budgetary schedules, and schedule of state financial assistance projects are fairly stated in all material respects in relation to the financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2023, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

March 29, 2023 Gainesville, Florida

The City of Alachua's (the City) Management's Discussion and Analysis (MD&A) is designed to: (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent year challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

Since the MD&A is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the City's financial statements (beginning on page 16). Please note the City provides prior year comparative financial information as required by Governmental Accounting Standards Board (GASB) Statement No. 34.

#### **Financial Highlights**

The following chart is provided to assist in understanding the component parts of the financial statements:

Management's Discussion and Analysis

Basic Financial Statements

Government-Wide Fund
Financial Statements Financial Statements

Notes to Financial Statements

Required Supplementary Information

Required components of City's Annual Financial Report

#### **Government-Wide Financial Statements**

- The City of Alachua's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at September 30, 2022, by \$88.1 million, which is a 4.99% increase from the previous year. Unrestricted net position was at \$10.9 million, which is a 52.10% increase from the previous year.
- The City's total net position increased by \$4,187,613 over the prior reported period. Despite the property tax rate remaining at 5.3900 mills, an increased net position was achieved, primarily, through net operating activity.
- The City's total long-term debt (due in more than one year) decreased by \$1,127,919 during the current fiscal year. This decrease is due to the reduction of outstanding debt as a result of the normal debt payments.
- Other Postemployment Benefits (OPEB), Net Pension Liability, and Compensated Absences increased by \$6,890,754, due primarily to an increase in the Net Pension Liability.
- Total net position (\$88.1 million) is comprised of the following:
  - The \$76.1 million net investment in capital assets includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of those capital assets.

- 2. \$1.1 million of net position is restricted by constraints imposed from outside of the City such as debt covenants, grantors, laws, or regulations, or by enabling legislation.
- 3. \$10.9 million of unrestricted net position.

#### **Fund Financial Statements**

- At September 30, 2022, the City's governmental funds reported combined ending fund balances of \$9.4 million, an increase of \$2.10 million, in comparison with the prior fiscal year. This increase is the result of planned expenditures not occurring within the fiscal year coupled with a reduction in advances to other funds.
- Governmental fund revenues were \$13,591,512, or \$0.6 million more than the previous fiscal year. This was primarily the result of an increase in General Fund property tax and other taxes, along with additional charges for services.

#### **Overview of the Financial Statements**

This MD&A is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of the following components: (1) government-wide financial statements, (2) fund financial statements, (3) notes to the financial statements, and (4) required supplementary information. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business, and consist of the following two statements:

- The *statement of net position* presents information on all of the City's assets, liabilities, deferred outflows of resources, and deferred inflows of resources, with the difference between these elements reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is strengthening or weakening.
- The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year, focusing on both the gross and net costs of various activities, both governmental and business-type, that are supported by the government's general tax and other revenues. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

Both of these financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, physical environment, transportation, economic environment, and parks and recreation. The business-type activities of the City include physical environment (electric, water, wastewater, and mosquito control utilities).

The government-wide financial statements include not only the City itself (known as the primary government), but also one component unit. The Community Redevelopment Agency, a legally separate entity created by the City Commission has been reported in the basic financial statements as a special revenue fund (pages 18 and 20).

The government-wide financial statements can be found on pages 16-17 of this report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All City funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The City does not report any fiduciary funds.

#### **Fund Financial Statements**

	Governmental Funds	Proprietary Funds
Scope	Includes the City's basic	Services provided by
	services such as police,	the City that are

	been received and	
	payment is due during	
	the year or soon	
	thereafter.	

#### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of *spendable resources*, as well as on balances of *spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Because of the different measurement focus (current financial resources versus total economic resources), a reconciliation of the governmental fund Balance Sheet to the government-wide Statement of Net Position and a reconciliation of the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances to the government-wide Statement of Activities is provided

(see pages 19 and 21) to facilitate the comparison between governmental funds and governmental activities. The flow of current financial resources will reflect bond proceeds and inter-fund transfers as other financial sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations (bonds and others) into the Governmental Activities column (in the government-wide statements).

The City reports fifteen (15) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other governmental funds are combined into a single aggregated presentation. Individual fund data for non-major governmental funds is provided in the form of *combining statements* in the supplementary information section of this report.

The City adopts an annual budget for its general, special revenue, debt service, and capital projects funds. Budgetary comparison schedules have been provided as required supplementary information for the General Fund to demonstrate budgetary compliance. Budgetary comparison schedules have been provided for all of the other governmental funds that have adopted budgets in the supplementary information section.

The basic governmental fund statements can be found on pages 18 and 20 of this report.

#### **Proprietary Funds**

The City maintains two different types of proprietary funds. *Enterprise Funds* are used to report business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Public Utilities System (Electric, Water, Wastewater, and Mosquito Control). *Internal Service Funds* are used to accumulate and allocate costs internally among the City's various functions. The City uses an *Internal Service Fund* to account for its Utility Billing, Utility Administration, Utility Operations, Utility Safety Operations, Warehouse Operations, and Distribution and Collection Operations. These services have been included within the government-wide financial statements as business-type activities.

Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The Enterprise Fund financial statements provide separate information for the Public Utility System. The Internal Service Fund is also presented in the proprietary fund financial statements. The basic proprietary fund financial statements can be found on pages 22-27.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28 through 57 of this report.

#### **Other Information**

The combining statements referred to earlier, present a more detailed view of the non-major governmental funds. Also included are budgetary comparison schedules for the debt service, special revenue, and capital project funds. The combining statements and budgetary comparisons can be found on pages 64 through 78 of this report.

#### **Government-Wide Financial Analysis**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$88.1 million at the close of the fiscal year ended September 30, 2022.

A portion of the City's net position, \$1,067,693, represents resources that are subject to external restriction on how they may be used.

The largest portion of the City's net position (\$76,109,157 or 86%) reflects its investment in capital assets (e.g., land, infrastructure, buildings, and equipment), less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Reported below is a condensed Statement of Net Position to demonstrate the changes from year to year. For more detailed information, see the Statement of Net Position on page 16.

### City of Alachua Statement of Net Position As of September 30, 2022 and 2021

#### **Normal Impacts**

There are six (6) basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

- Net Results of Activities will impact (increase/decrease) current assets and liabilities, and unrestricted net position.
- Borrowing of Capital will increase current assets and long-term debt.
- Spending Borrowed Proceeds on New Capital will reduce current assets and increase capital assets with a secondary impact being that an increase in invested capital assets, and an increase in related net debt will not change the net investment in capital assets.

- Spending of Non-Borrowed Current Assets on New Capital will reduce current assets, increase capital assets, reduce unrestricted net position, and increase net investment in capital assets.
- Principal Payment on Debt will reduce current assets and reduce long-term debt, reduce unrestricted net position, and increase net investment in capital assets.
- Reduction of Capital Assets through Depreciation will reduce net investment in capital assets.

#### **Government-Wide Net Position**

The City's total net position at the end of fiscal year 2022 improved by \$4,187,613 resulting from an increase of \$1,982,984 in governmental activities and an increase of \$2,204,629 in business-type activities.

#### **Governmental Activities**

The City's net position within governmental activities was improved by \$1,982,984 during fiscal year 2022. This net position increase was, primarily, the result of an increase within governmental sources of funding.

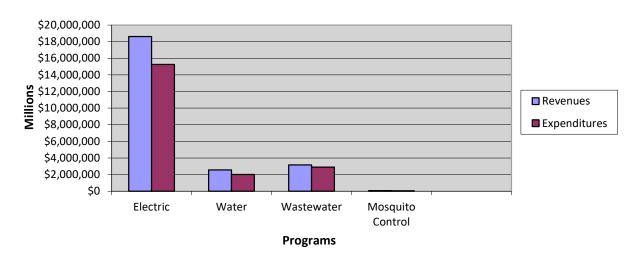

Major changes in revenues were caused by the following:

■ For fiscal year ended September 30, 2022, property taxes increased by \$352,268, primarily, due to the increased property valuation. Other taxes increased by \$153,777 and intergovernmental revenues increased by \$170,150.

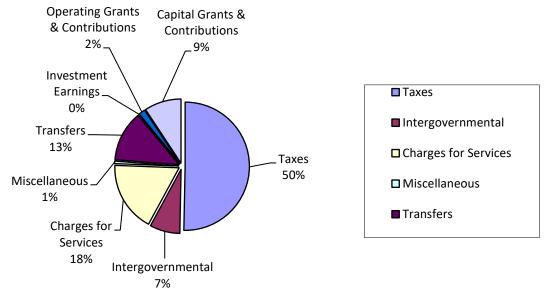

Major changes in expenses were caused by the following:

Expenses for governmental activities experienced an increase of \$1,092,739. This increase was the result of reduction of the discount rate used to determine the net pension liability coupled with inflation on professional and contractual services provided to the City.

#### **Expenses and Program Revenues - Business-Type Activities**

#### **Revenue by Source - Governmental Activities**

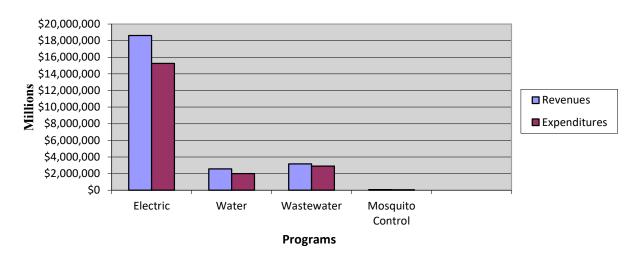

#### **Business-Type Activities**

The City's net position within business-type activities was improved by \$2,204,629 during fiscal year 2022.

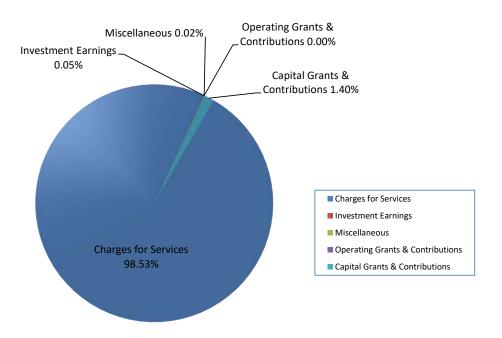

Net position increased due to overall increases in revenues. Charges for services increased by \$3,950,786. Other revenues increased by \$197,641 in 2022. Business-type expenses increased by \$4,085,861 largely due to purchase power and transmission costs during the fiscal year.

- The Electric Utility of the City operates at 12.47/138kV. The City purchases power from Florida Power & Light and Florida Municipal Power Agency (FMPA) at two different locations. The majority of the customers are supplied from the Alachua Substation, which is connected to GRU's transmission system. The second source is the recently constructed Legacy Substation that became operational late fiscal year 2021, operates at 12.47/69kV, and is connected to the Duke Energy of Florida transmission system.
- The Water Utility obtains its water supply from the upper portion of the Floridan Aquifer. Three wells with depths of approximately 365 feet withdraw water from the Ocala limestone and discharge it into the City's distribution system. The quality of the City's water supply is such that chlorination and fluoridation are the only treatments required prior to distribution. The system's wells range in age from 30 to 53 years old.
- Wastewater generated through the utility is collected through a gravity sewer system and pumped to the City's wastewater treatment plant. The collected wastewater is treated in an activated sludge treatment facility, which has a current capacity of 1,500,000 gallons per day. The effluent from the treatment facility is chlorinated and disposed of by spray irrigation, and is also resold as reclaimed water.

#### **Expenses and Program Revenues - Business-Type Activities**

#### Revenue By Source-Business-Type Activities

#### **Fund Financial Analysis**

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The primary purpose of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable resources*. Such information is useful in assessing the City's financing requirements. In particular, *assigned and unassigned fund balance* may serve as a useful measure of a government's net resources, available for spending, at the end of the fiscal year.

As of the end of fiscal year 2022, the City's governmental funds reported combined ending fund balances of \$9,401,471, an increase of \$2,101,608 in comparison with the prior year.

#### **Major Funds**

The General Fund is the only major governmental fund.

The General Fund is the chief operating fund of the City. The General Fund had an increase in fund balance of \$934,280. This increase was the result of decreased expenditures and primarily, increased property taxes based on property values. The total fund balance was \$7,911,608, of which \$4,905,716 was unassigned. The cash balance at the end of the year was \$7,283,605. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund revenues. Unassigned fund balance represents 43.3% of the total General Fund operating revenue, while total fund balance represents 69.9% of that same figure. The Government Finance Officers Association (GFOA), Best Practices Guidelines calls for an unassigned fund balance level of two (2) months of operating revenues. Total fund balance includes committed, restricted, assigned, and unassigned fund balances.

#### **Proprietary Funds**

The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. The Electric, Water, and Wastewater Funds are reported as major funds.

The major utility system funds are used to account for the operations of the City's electric, water, and wastewater utilities. Each utility operates like a business, where the rates established by the City generally generate sufficient funds to pay the costs of current operations and provide for long-term asset acquisitions. Total assets and deferred outflows of resources as of September 30, 2022, were \$69.2 million, total liabilities and deferred inflows were \$24.2 million. Net position was \$45.0 million.

#### **General Fund Budgetary Highlights with Variances**

The General Fund operating budget was \$10,537,757 at the beginning of fiscal year 2022. The final amended budget amount of \$10,554,468 was brought about by the following amendments:

- \$2,024: Increase to provide budget for expenses of the Alachua Police Department related to an Edward Byrne Memorial Justice Assistance Grant (JAG).
- \$9,687: Increase unanticipated forfeiture funds of the Alachua Police Department for the use of software.
- \$5,000: Increase to appropriate additional unanticipated fuel tax refund and extra duty charges to cover increased fuel expenditures of the Alachua Police Department.

#### **General Fund Actual Results Highlights with Variances**

At September 30, 2022, the City's General Fund experienced a positive variance between its final operating revenue budget and actual operating revenue in the amount of \$771,312. This was due to increased taxes, permits and fees related to development and higher levels of intergovernmental revenues relative to the budgetary forecast. The City's General Fund experienced a positive variance between its final operating expenditure budget and actual operating expenditures in the amount of \$1,990,490. This was primarily due to unspent operating and capital expense appropriations in general government, public safety, and transportation.

#### **Capital Asset and Debt Administration**

The City's capital assets for its governmental and business-type activities as of September 30, 2022, totaled \$102.7 million (net of accumulated depreciation), and includes land, buildings, improvements other than buildings, equipment, infrastructure, and construction in progress.

City of Alachua Capital Assets (in thousands)

	Governmental			Business-	type			Total %

Total Assets	\$	51,615	51,828	51,066	51,738	102,681	103,566	-0.9%	

The City of Alachua continued to focus on expanding and maintaining its current infrastructure capabilities, both in governmental and business-type activities.

Major capital asset events during the current fiscal year for governmental activities included commencement of the downtown parking lot, completion of a natural stormwater filtration system at Mill Creek Sink, and completion of the Hal Brady recreation maintenance shed.

Major capital asset events for the business-type activities included the construction of the new electrical Legacy substation.

Additional information on the City's capital assets can be found in Note 6 starting on page 39 of this report.

#### **Long-Term Debt**

At the end of fiscal year 2022, the City had total long-term debt outstanding of approximately \$26.6 million. The City's debt represents bonds, notes, and loans secured by specific revenue sources (i.e., revenue bonds/notes).

The City's Capital Improvement and Refunding Revenue Bonds, Series 2016, A1 rating by Moody's Investor Service has remained unmodified at the end of the fiscal year.

# CITY OF ALACHUA, FLORIDA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2022

Net Change in Fund Balance - Total Governmental Funds		\$ 2,101,608
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:		
Governmental funds report capital outlays as expenditures.  However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives and reported as depreciation expense:		
Expenditures for Capital Assets Depreciation Expense	\$ 1,450,246 (1,744,723)	(294,477)
Donations of capital assets are not recorded in governmental funds. However, in the statement of activities, the fair values of those assets are recorded as revenue.		82,076
Governmental funds report proceeds from sales of capital assets as current financial resources. The gain or loss on disposal of capital assets is not reflected in the governmental funds:		
Loss on Disposal of Capital Assets		(665)
Repayment of long-term liabilities are expenditures in the governmental funds but the repayment reduces long-term liabilities in the statement of net position.		324,918
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Amortization of Premium Change in Accrued Interest Payable Change in Compensated Absences Liability	 24,034 6,442 (459)	30,017
The net change in other postemployment benefit obligation liability and deferred inflows and outflows related to pensions is reported in the statement of activities, but not in the fund statements.		(21,953)
The net change in the net pension liability and deferred inflows and outflows related to pensions is reported in the statement of activities, but not in the fund statements.		(238,540)
Change in Net Position of Governmental Activities	· 	\$ 1,982,984

#### Note 1 – <u>Summary of Significant Accounting Policies</u>

The financial statements of the City of Alachua, Florida, (the City) have been prepared in conformity with generally accepted accounting principles in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Significant City accounting policies are described below:

#### **Reporting Entity**

The City is a political subdivision of the State of Florida, established in 1905 under the legal authority of Chapter 165, Florida Statutes, and is located in Alachua County. The legislative branch of the City is composed of a five-member elected commission. The City Commission is governed by the City Charter and by state and local laws and regulations. The City Commission is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of the City Manager, who is appointed by the Commission.

The City's major operations include various utility services, electric, water and wastewater, as well as police protection, road and street maintenance, parks, recreation, and other general government services. Fire services are provided by Alachua County by means of a property assessment. The City leases the fire station and equipment to Alachua County at no cost. Sanitation services are provided by a private company, but billed by the City to its customers. The City retains an administrative fee on sanitation services.

In accordance with the Codification of Governmental Accounting and Financial Reporting Standards, the accompanying financial statements include all funds for which the City is financially accountable. The City has also considered all other potential organizations for which the nature and significance of their relationships with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. GASB has set forth criteria for consideration in determining financial accountability. These criteria include appointing a majority of an organization's governing body and: (1) the ability of the City to impose its will on that organization; or, (2) the potential for that organization to provide specific benefits to or impose specific financial burdens on the City. Other considerations are whether the organization is legally separate, whether the City holds the corporate powers of the organization, and whether there is fiscal dependency by the organization on the City.

#### **■** Community Redevelopment Agency

The Community Redevelopment Agency (the CRA) was created by the City Commission in 1982 pursuant to Ordinance 82-5 to carry out the community redevelopment purposes of Florida Statute, Chapter 163. Subsequent amendments were made to the CRA through Ordinances 98-14, 98-24, 99-03, and 13-07. The City Commission serves as the CRA board and the City maintains operational responsibility for the CRA's activity. Although legally separate, the CRA is appropriately blended as a governmental fund type component unit into the primary government. Separate financial statements for the CRA are prepared and are available by contacting the City at P.O. Box 9, Alachua, Florida 32616.

#### **Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the City. For the most part, the effect of the interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, postemployment benefits, claims and judgments, and pension benefits are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, such as in grants and similar items, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded and the availability criteria. In the other, monies are virtually unrestricted as to purpose of expenditure, and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Licenses and permits, fines and forfeitures, charges for sales and services (other than utility), and miscellaneous revenues are generally recorded as revenue when received in cash, because they are generally not measurable until actually received. Utility services, investment earnings, franchise fees, and utility taxes are recorded as earned, since they are measurable and available.

Property taxes are recognized as revenue at the time an enforceable legal claim is established. This is determined to occur November 1, of each year. The assessment roll is validated July 1, and the millage resolution is approved by September 30. The City's property tax becomes a lien on October 1, and the tax is levied by Alachua County each November 1, for real and personal property located in the City. Property taxes are due before April 1, with the maximum discount available, if payment is made on or before November 30. If payment remains delinquent, a tax certificate for the full amount of any unpaid taxes is sold no later than June 1. Under this arrangement, there are no property tax receivables at the end of the fiscal year on September 30.

The government reports the following major governmental funds:

#### General Fund

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The government reports the following major proprietary funds:

#### **■** Electric Fund

The Electric Fund accounts for the revenues and expenses associated with the City's electric utility service.

#### ■ Water Fund

The Water Fund accounts for the revenues and expenses associated with the City's water distribution system.

#### ■ Wastewater Fund

The Wastewater Fund accounts for the revenues and expenses associated with the City's wastewater treatment plant, wastewater pumping stations, and collection system.

In addition, the government reports the following fund type:

#### ■ Internal Service Fund

The Internal Service Fund accounts for goods or services provided by programs that provide support to the Electric, Water, Wastewater, and Mosquito Control Funds. These activities include Utility Administration, Utility Operations, Utility Billing, Warehouse Operations, Water Distribution and Collection, Safety and Compliance, Information Technology, and the Operations Center Capital Projects divisions.

The effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's electric, water and wastewater function, and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City's enterprise funds also recognize as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

#### Deposits and Investments

The City maintains a cash pool that is available for use by all funds. Interest income earned as a result of pooling is distributed monthly to the appropriate funds based on average daily balances.

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and highly liquid instruments with original maturities of three months or less from the date of acquisition.

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as qualified public depositories, a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral for their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions providing full insurance for public deposits. The City had deposits only with qualifying institutions as of September 30, 2022.

Investments of the City are held in the Florida PRIME portion of the State Investment Pool. These investments are classified as cash and cash equivalents and reported at amortized cost, which approximates fair value.

#### ■ Receivable and Payables

Outstanding balances between funds are reported as *due to/from other funds* or *advances to/from other funds*. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Receivables are reported net of an allowance of uncollectibles. The City has recorded a \$36,098 allowance for uncollectibles in the Electric Fund and \$56,140 in the General Fund.

#### Inventory

Inventories are valued at cost, which approximates market value, using the first-in, first-out (FIFO) method. Generally, the costs of governmental fund type inventories are recorded as expenditures when consumed (consumption method) rather than when purchased.

#### ■ Prepaids

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are accounted for by use of the consumption method.

#### Restricted Assets

Certain resources are set aside for debt reserves, customer deposits, unspent bond proceeds, and other purposes. These resources are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants, ordinances, or regulations.

#### Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (i.e., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value rather than fair value.

The costs of normal maintenance and repairs that do not add to the value of the asset, or materially extend assets lives, are not capitalized.

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Buildings10-50 YearsImprovements10-35 YearsInfrastructure40-55 YearsFurniture, Fixtures, and Equipment3-20 Years

#### **■** Compensated Absences

Accumulated unpaid vacation time, compensatory time, and sick time amounts, including the related direct and incremental salary-related payments, accrues in the enterprise funds, and appear as increases in salary expenses in the proprietary financial statements. In the governmental funds, these costs are recognized when payments are made to employees or when the costs mature as a result of an employee resignation or retirement. All vacation, compensatory and sick pay accrues when incurred in the government-wide financial statements.

#### **■** Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities and business-type activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the bond premium or discount. Bond issuance costs are expensed when incurred, with the exception of bond insurance, which is amortized over the term of the related debt.

In the fund financial statements, governmental fund types record bond premiums and discounts, as well as bond issuance costs in the year incurred. The face amount of debt issued is reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

#### ■ Deferred Inflows and Outflows of Resources

Deferred outflows of resources represent a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources until that future time. Deferred inflows of resources represent an acquisition of net assets that applies to future periods and will not be recognized as an inflow of resources until that future time. Deferred outflows have a positive effect on net position, similar to assets, while deferred inflows have a negative effect on net position, similar to liabilities. The City reports deferred outflows of resources related to unamortized refunding losses, as well as pension and OPEB related deferred inflows and outflows of resources.

- Unavailable Revenues—In the governmental funds, revenues not received within the City's
  availability period are considered unavailable and, therefore, reported as a deferred inflow. For
  this purpose, the City considers revenues to be available if they are collected within 60 days of
  the end of the current fiscal period.
- Pension and OPEB Related—The difference between expected and actual experience with regard to economic or demographic factors and changes to assumption in the measurement of total pension and OPEB liability, the differences between expected and actual earnings on pension plan and OPEB investments, and the change in the proportionate share of the net pension liability and OPEB liability resulting from a change in proportion are reported as deferred inflows or outflows of resources, to be recognized in expense. Contributions made subsequent to the measurement date, but prior to the reporting date, are reported as deferred outflows of resources.

#### ■ Fund Balance

Fund balance classifications comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components: non-spendable, restricted, committed, assigned, and unassigned.

- Non-Spendable—This component of fund balance consists of amounts that cannot be spent because: (a) they are not expected to be converted to cash; or (b) they are legally or contractually required to remain intact. Examples of this classification are prepaid items and principal (corpus) of an endowment fund. On the governmental funds balance sheet, the prepaid balances reported is offset by a non-spendable fund balance classification which indicates it does not constitute "available spendable resources" even though it is a component of current assets.
- **Restricted**—This component of fund balance consists of amounts that are constrained either: (a) externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments); or (b) by law through constitutional provisions or enabling legislation.
- Committed—This component of fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (i.e., by ordinance) of the City Commission. These committed amounts cannot be used for any other purpose unless the City Commission removes or changes the specified use by taking the same type of action employed to constrain those amounts.
- Assigned—This component of fund balance consists of amounts that the City intends to use for a
  specific purpose as determined by the City Commission in accordance with the City's fiscal policies.
  In addition, residual balances in capital projects and debt service funds are considered assigned
  for the general purpose of the respective fund, as approved by the City Commission through the
  budget process.
- **Unassigned**—This classification is used for: (a) deficit unrestricted fund balances in any governmental fund; or (b) fund balances within the general fund that are not restricted, committed, or assigned.

When both restricted and unrestricted resources are available for use, it is generally the practice of the City to use restricted resources first, then unrestricted resources as they are needed. When unrestricted resources (committed, assigned, and unassigned) are available for use in any governmental fund, it is the City's practice to use committed resources first, then assigned, and then unassigned as needed.

#### ■ Net Position

Net position invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position invested in capital assets, net of related debt excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislation or through external restrictions imposed by creditors, grantors, laws, or regulations. Net position not reported as net position invested in capital assets, net of related debt or restricted net position, are reported as unrestricted net position.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed.

#### **Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America as applied to governmental units, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates.

#### **Upcoming Governmental Accounting Standards Board (GASB) Pronouncements**

GASB has issued new accounting and financial reporting pronouncements, which will become effective for the City's 2023 fiscal year reporting period:

■ GASB Statement No. 96, Subscription-Based Information Technology Arrangements, changes the accounting and financial reporting related to Subscription-Based Information Technology Arrangements (SBITAs) for government end-users. Upon adoption, a SBITA will result in a right-to-use subscription asset, which will be an intangible asset, and a corresponding subscription liability. The new guidance also provides capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA, and requires note disclosures regarding a SBITA.

#### Note 2 - Stewardship, Compliance, and Accountability

#### **Budgetary Information**

The City's procedures in preparing and adopting the annual budgets are as follows:

- The City Manager is responsible for preparing a proposed operating budget for the upcoming year prior to September 30 that includes estimated revenues, proposed expenditures, and other financing sources and uses.
- Two public hearings are held to obtain taxpayer comments and suggestions. The budget is enacted through passage of a resolution.
- The City Manager is authorized to transfer budgeted amounts within any department, but may not revise total departmental expenditures without the approval of the City Commission.
- The budget is prepared by fund, function, and department. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level for the general fund and the fund level for all other governmental funds.
- Unused appropriations lapse at the end of the year.
- Budgets are adopted on a basis consistent with GAAP.

Budgeted amounts in the accompanying financial statements are as originally adopted, or as amended by the appropriate authority.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve a portion of the applicable appropriation, is employed throughout the fiscal year as an operating tool for budgeted funds. Encumbrances outstanding at year-end are reported as assigned, committed, or restricted fund balance in the governmental funds.

#### **Deficit Fund Equity**

At September 30, 2022, the following funds had deficit fund balances:

Fund	Type	 Deficit
Wild Spaces Public Places	Non-Major Governmental	\$ (301,593)

The City anticipates that the deficit in the Wild Spaces Public Places fund will be recovered with sales tax receipts.

#### Note 3 – Cash, Cash Equivalents, and Investments

Deposits and investments as of September 30, 2022, are classified in the accompanying financial statements as follows:

Statement of Net Position	
Cash and Cash Equivalents	\$ 22,405,663
Restricted:	
Cash and Cash Equivalents	 4,008,944
Total Cash and Investments	\$ 26,414,607
Deposits and investments consist of the following:	
Cash Deposits	\$ 25,335,429
Investments	 1,079,178
Total Cash and Investments	\$ 26,414,607

#### **Deposits**

All of the City's cash deposits are held in banks that qualify as a public depository under the *Florida Security for Public Deposits Act* as required by Chapter 280, Florida Statutes. Under the Act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits, times the depository's collateral pledged level. The pledging level may range from 25% to 125% depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. In event of default by a qualified public depository, all claims for public deposits would be satisfied by the State Treasurer from the proceeds of federal deposit insurance, pledged collateral of the public depository in default and, if necessary, a pro rata assessment to the other qualified public depositories in the collateral pool. Therefore, all cash and time deposits held by banks are fully insured and collateralized.

#### **Investments**

The City's investment are summarized below, at September 30, 2022:

	I	air Value	FMV Level	
Florida PRIME, at Amortized Costs	\$	1,079,178	N/A	

#### **Fair Market Value Hierarchy**

Investments, including derivative instruments that are not hedging derivatives, are measured at fair value on a recurring basis. Recurring fair value measurements are those that GASB statements require ,or permit, in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

#### Florida PRIME

The City's investments in the Florida Prime Investment Pool (Florida PRIME) are similar to money market funds in which units are owned in the fund rather than the underlying investments. Florida PRIME is administered by the Florida State Board of Administration (SBA), which provides regulatory oversight. These investments are reported at amortized cost and meet the requirements of GASB Statement No. 31, as amended by GASB Statement No. 79, Certain External Investment Pools and Pool Participants, which establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. There is no limitation or restrictions on withdrawals from Florida PRIME; although in the occurrence of an event that has a material impact on liquidity or operations of the trust fund, the funds' executive director may limit contributions to or withdrawals from the trust fund for a period of 48 hours.

Credit Risk—The City's policy limits investments of governmental and business-type funds to U.S. Treasury and agency obligations, federal instrumentalities, interest-bearing time deposit or saving accounts, repurchase agreements, money market funds, and intergovernmental investment pools. Investments in mutual funds must maintain a rating of Aam or Aam-G or better by Standard & Poor's, or the equivalent by another rating agency. Florida PRIME is rated by Standards & Poor's and has a rating at September 30, 2022, of AAAm.

Interest Rate Risk—The City's investment policy permits the investment of current operating funds with maturities of no longer than two years. Investments of non-operating funds such as bond reserves shall have a term appropriate to the need for funds and in accordance with debt covenants, but not exceeding five years. Custodians are primarily bank trust departments, insurance companies, brokerage firms, the State of Florida, and SBA. The dollar weighted-average days to maturity (WAM) of the Florida PRIME at September 30, 2022, is 21 days. The weighted average life (WAL) of Florida PRIME at September 30, 2022, is 72 days.

Custodial Credit Risk—For an investment, custodial credit risk is the risk that in the event of failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City generally utilizes third party custodians to help manage custodial credit risk.

Concentration of Credit Risk—The City's investment policy requires diversification of investments in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio. All of the City's investments are in external investment pools.

#### Note 4 – Restricted Assets

Restricted cash and investments at September 30, 2022, are as follows:

	 vernmental Activities	Business-Type Activities		
Cash and Cash Equivalents				
Debt Service Reserve and Sinking Funds	\$ -	\$	171,504	
Cash with Fiscal Agent	605,528		525,555	
Customer Deposit	-		1,990,241	
Economic Environment	670,631		-	
Parks and Recreation	1,661		-	
Physical Environment	20,317		-	
Infrastructure	4,325		-	
Other	 19,182			
Net Restricted Cash and Cash Equivalents	\$ 1,321,644	\$	2,687,300	

#### Note 5 – <u>Inventory</u>

Inventory at September 30, 2022, consists of the following:

<b>Governmental Activities</b>	B	alance
Lightpoles and Globes	\$	4,961
Total	\$	4,961
Business-Type Activities		
Electric Utility Supplies	\$	767,602
Transformers		862,380
Meters		84,476
Water/Wastewater Supplies		158,870
Total	<u>\$</u>	1,873,328

#### Note 6 – Capital Assets

The following is a summary of changes in capital assets for the governmental activities for the year ended September 30, 2022:

	E	Beginning						Ending
		Balance		Increases		(Decreases)		Balance
Governmental Activities Capital Assets Not Being Depreciated:								
Land Construction in Progress	\$	7,841,280 3,154,281	\$	- 1,131,711	\$	- (1,935,149)	\$	7,841,280 2,350,843
Total Capital Assets Not Being Depreciated		10,995,561		1,131,711		(1,935,149)		10,192,123
Capital Assets Being Depreciated: Buildings and Improvements		16,783,923		123,770				16,907,693
Improvements Other than Building		13,647,092		111,403		-		13,758,495
Infrastructure Furniture, Fixtures, and Equipment		21,952,051 4,299,400		1,630,323 470,266		- (128,262)		23,582,374 4,641,404
Total Capital Assets Being Depreciated		56,682,466		2,335,762		(128,262)		58,889,966
Less Accumulated Depreciation: Building		(3,463,389)		(337,466)				(3,800,855)
Improvements Other than Buildings		(2,793,521)		(498,392)		-		(3,291,913)
Infrastructure Furniture, Fixtures, and Equipment		(6,990,648) (2,601,911)		(457,801) (451,064)		- 127,597		(7,448,449) (2,925,378)
Total Accumulated Depreciation		(15,849,469)		(1,744,723)		127,597		(17,466,595)
Total Capital Assets Being Depreciated, Net		40,832,997		591,039		(665)		41,423,371
Governmental Activities Capital								
Depreciated, Net	\$	51,828,558	\$	1,722,750	\$	(1,935,814)	\$	51,615,494

The following is a summary of changes in capital assets for the business-type activities for the year ended September 30, 2022:

	1	Beginning					Ending
	Balance		Increases		(Decreases)		 Balance
Business-Type Activities							
Capital Assets Not Being Depreciated:							
Land	\$	586,447	\$	-	\$	-	\$ 586,447
Construction in Progress		6,713,351		864,538		(5,526,257)	 2,051,632
Total Capital Assets Not Being Depreciated		7,299,798		864,538		(5,526,257)	2,638,079
Capital Assets Being Depreciated:							
Buildings and Improvements		9,972,016		-		-	9,972,016
Improvements Other than Building		8,594,072		718,196		-	9,312,268
Infrastructure		48,219,841		5,182,553		-	53,402,394
Furniture, Fixtures, and Equipment		3,844,316		87,303		(27,429)	3,904,190
Total Capital Assets Being Depreciated		70,630,245		5,988,052		(27,429)	76,590,868
Less Accumulated Depreciation:							
Buildings and Improvements		(4,553,133)		(209,829)		-	(4,762,962)
Improvements Other than Building		(3,425,086)		(354,997)		-	(3,780,083)
Infrastructure		(15,508,444)		(1,205,937)		-	(16,714,381)
Furniture, Fixtures, and Equipment		(2,704,668)		(232,369)		31,423	 (2,905,614)
Total Accumulated Depreciation		(26,191,331)		(2,003,132)		31,423	(28,163,040)
Total Capital Assets Being Depreciated, Net		44,438,914		3,984,920		3,994	48,427,828
Total Business-Type Activities							
Capital Assets, Net	\$	51,738,712	\$	4,849,458	\$	(5,522,263)	\$ 51,065,907

Depreciation expense was charged to functions of the governmental activities as follows:

Governmental Activities	
General Government	\$ 349,134
Public Safety	236,772
Physical Environment	54
Transportation	664,607
Economic Environment	53,504
Parks and Recreation	 440,652
Total	\$ 1,744,723

Depreciation expense was charged to functions of the Business-Type activities as follows:

Business-Type Activities	
Electric	\$ 602,269
Water	255,770
Wastewater	955,931
Mosquito	8,558
Internal Service	180,604
Total	\$ 2,003,132

#### Note 7 – Long-Term Liabilities

#### **Governmental Activities**

The following schedule summarizes the changes in the City's governmental long-term liabilities during the year ended September 30, 2022:

	Beginning Balance	 Additions	R	eductions	En	ding Balance	 ue Within One Year
Capital Improvement and Refunding		 					
Revenue Bonds, Series 2016	\$ 11,312,575	\$ -	\$	(229,400)	\$	11,083,175	\$ 399,601
Plus Premium	612,878	-		(24,034)		588,844	24,034
2013 Redevelopment Note	193,168	-		(95,517)		97,651	97,651
Compensated Absences	584,902	202,314		(201,855)		585,361	311,241
Total	\$ 12,703,523	\$ 202,314	\$	(550,806)	\$	12,355,031	\$ 832,527

#### ■ Redevelopment Revenue Note, Series 2013 – Direct Placement

On May 23, 2013, the City executed a loan agreement with BB&T Governmental Finance for the purposes of funding or financing redevelopment activities within the Redevelopment District. The City is required to expend the funds, together with the investment earnings thereon, within three years of the date of issue to pay the costs of the redevelopment project according to the City's Redevelopment Plan.

The note is secured by a lien upon the tax increment revenues of the Redevelopment District. Interest is payable semiannually for ten years on June 1 and December 1 at a fixed interest rate of 2.22%. Principal payments are also due semiannually on June 1 and December 1.

#### ■ Capital Improvement Revenue and Revenue Refunding Bonds, Series 2016 – Direct Placement

On April 11, 2016, the City issued bonds in the amount of \$16,545,000 to pay the cost of: (1) the construction of the new recreation facility at Legacy Park, including the acquisition and installation of furniture, fixtures, and equipment; (2) the construction of the City's new operations center, including acquisition and installation of furniture, fixtures, and equipment; (3) the refunding of the City's outstanding Capital Improvement and Refunding Revenue Bonds, Series 2006; and (4) to pay certain costs of issuance incurred with respect to the issue.

The bonds are secured by a covenant to budget and pledge of the legally available non-ad valorem revenues of the City. Interest is payable semiannually on April 1 and October 1, each year at interest rates ranging from 3.00% to 5.00%. Principal payments are due annually on October 1 with a maturity date of October 1, 2046.

#### Compensated Absences

Compensated absences reported as governmental activities in the statement of net position are liquidated by the fund which pays the employee's payroll expenses.

The following schedule summarizes the retirement of the governmental long-term debt by fiscal year (excluding compensated absences):

Fiscal Year Ending	Principal		Interest		Total
2023	\$	521,286	\$	403,495	\$ 924,781
2024		442,134		381,424	823,558
2025		460,634		360,056	820,690
2026		479,134		337,764	816,898
2027		508,734		314,269	823,003
2028-2032		2,884,072		1,231,758	4,115,830
2033-2037		2,965,472		754,965	3,720,437
2038-2042		1,640,872		431,820	2,072,692
2043-2047		1,867,332		155,719	 2,023,051
Total	\$	11,769,670	\$	4,371,270	\$ 16,140,940

#### **Business-Type Activities**

The following schedule summarizes the changes in the City's business-type long-term liabilities during the year ended September 30, 2022:

ا	Beginning Balance		Additions	R	eductions	En	ding Balance		ue Within One Year
\$	7,217,436	\$	-	\$	(284,479)	\$	6,932,957	\$	291,391
	4,027,425		-		(80,600)		3,946,825		140,400
	226,681		-		(8,889)		217,792		8,889
	4,110,000		-		(405,000)		3,705,000		210,000
	247,058		116,104		(122,157)		241,005		161,241
\$	15,828,600	\$	116,104	\$	(901,125)	\$	15,043,579	\$	811,921
	\$	\$ 7,217,436 4,027,425 226,681 4,110,000 247,058	\$ 7,217,436 \$ 4,027,425 226,681 4,110,000 247,058	\$ 7,217,436 \$ - 4,027,425 - 226,681 - 4,110,000 - 247,058 116,104	\$ 7,217,436 \$ - \$ 4,027,425 - 226,681 - 4,110,000 - 247,058 116,104	Balance         Additions         Reductions           \$ 7,217,436         \$ - \$ (284,479)           4,027,425         - (80,600)           226,681         - (8,889)           4,110,000         - (405,000)           247,058         116,104         (122,157)	Balance         Additions         Reductions         En           \$ 7,217,436         \$ - \$ (284,479)         \$           4,027,425         - (80,600)         (8,889)           226,681         - (80,600)         (8,889)           4,110,000         - (405,000)         (122,157)	Balance         Additions         Reductions         Ending Balance           \$ 7,217,436         \$ -         \$ (284,479)         \$ 6,932,957           4,027,425         -         (80,600)         3,946,825           226,681         -         (8,889)         217,792           4,110,000         -         (405,000)         3,705,000           247,058         116,104         (122,157)         241,005	Balance         Additions         Reductions         Ending Balance         C           \$ 7,217,436         \$ -         \$ (284,479)         \$ 6,932,957         \$           4,027,425         -         (80,600)         3,946,825         226,681         -         (8,889)         217,792           4,110,000         -         (405,000)         3,705,000         247,058         116,104         (122,157)         241,005

■ 2009 State Revolving Fund Loan – Florida Department of Environmental Protection – Direct Borrowing In June 2009, the City authorized a loan agreement to finance construction costs related to the wastewater control facility in the amount of \$10,000,000 with additional increases in 2010 and 2011 of \$10,000,000 and \$550,074, respectively. The total loan was \$20,550,074, of which \$11,841,733 was forgiven pursuant to the loan agreement. Principal and interest are payable semiannually on November 15 and May 15 of each year until all amounts due under the agreement have been fully paid. Interest is payable at rates ranging from 2.24% to 2.67%.

Net utility revenues of the system and excise taxes are pledged as collateral for the loan. These pledged revenues are subordinate to the Utility Acquisition Bonds, Series 1993 and the Utility Systems Utility Revenue Bonds, Series 2013.

Capital Improvement Revenue and Revenue Refunding Bonds, Series 2016 – Direct Placement On April 11, 2016, the City issued bonds in the amount of \$16,545,000 to pay the cost of: (1) the construction of the new recreation facility at Legacy Park, including the acquisition and installation of furniture, fixtures, and equipment; (2) the construction of the City's new operations center, including acquisition and installation of furniture, fixtures, and equipment; (3) the refunding of the City's outstanding Capital Improvement and Refunding Revenue Bonds, Series 2006; and (4) to pay certain costs of issuance incurred with respect to the issue.

The bonds are secured by a covenant to budget and pledge of the legally available non-ad valorem revenues of the City. Interest is payable semiannually on April 1 and October 1, each year at interest rates ranging from 3.00% to 5.00%. Principal payments are due annually on October 1 with a maturity date of October 1, 2046.

#### ■ Capital Improvement Revenue Note, Series 2019 – Direct Placement

On January 14, 2019, the City adopted Resolution R-19-03, authorizing the issuance of the Capital Improvement Revenue Note, Series 2019. The note was issued at a par amount of \$4,500,000 to finance the cost of certain capital improvements related to the City's water and wastewater capital improvement projects. Revenues pledged to cover the debt service related to the note include all Non-Ad Valorem Revenues of the City. The note carries a fixed interest rate of 3.29% payable semiannually on April 1 and October 1 of each year with a maturity date of October 1, 2035.

The following schedule summarizes the principal retirement for bonds and notes for business-type debt by fiscal year (excluding compensated absences liability):

Fiscal Year Ending	Principal		Interest		Total
2023	\$	650,680	\$	425,588	\$ 1,076,268
2024		674,262		404,250	1,078,512
2025		698,017		382,086	1,080,103
2026		726,949		359,007	1,085,956
2027		739,963		335,160	1,075,123
2028-2032		4,075,303		1,308,357	5,383,660
2033-2037		4,214,222		689,399	4,903,621
2038-2042		2,312,345		247,495	2,559,840
2043-2047		710,833		54,712	765,545
Total	\$	14,802,574	\$	4,206,054	\$ 19,008,628

#### Interest

During the year, the City incurred \$849,314 of interest costs.

#### **Debt Covenants**

The City has covenanted to establish and collect fees from users of the Utility System (the System) (gross revenues of the System, as defined in the bond ordinance) sufficient to pay the costs of operation and maintenance of the System (as defined in the bond ordinance) plus 100% of the bond service requirements for that year. In addition, the rate covenants require the City to establish and collect fees from users of the System and excise taxes sufficient to pay the costs of operation and maintenance of the System plus 120% of the bond service requirements.

The debt purchase agreement rate covenant requires that the City establish and collect fees from users of the System sufficient to provide supplemental pledged revenues (as defined in the debt purchase agreement) equal to or exceeding 115% of the State Revolving Fund (SRF) loan debt service requirements.

The City has also covenanted to establish a special fund called the "Bond and Interest Sinking Fund," to be used exclusively for debt service payments on certain bonds.

As of September 30, 2022, the City has met its debt covenants.

#### Note 8 – Pledged Revenues

The City has pledged certain revenues to repay bonds and notes outstanding as of September 30, 2022. The following table reports the revenues, sometimes net of related operating expenses, pledged for each debt issue, the amounts of such revenues received in the current year, the current year principal and interest paid on the debt, the approximate percentage of each revenue which is pledged to meet the debt obligation, the date through which the revenue is pledged under the debt agreement, and the total pledged future revenues for each debt, which is the amount of the remaining principal and interest on the bonds and notes at September 30, 2022:

			Principal		Outstanding	
			and	Estimated	Principal	
Pledged	Description of	Revenue	Interest	Percentage	and	Pledged
Revenue	Bonds	Received	Paid	Pledged	Interest	Through
Non-Ad Valorem	Capital Improvement and Refunding					
	Revenue Bonds, Series 2016	<u>\$ 7,630,593</u>	\$ 876,458	13%	<u>\$ 21,741,559</u>	2047
Non-Ad Valorem	Capital Improvement Revenue Note,					
	Series 2019	<u>\$ 7,630,593</u>	\$ 533,520	8%	\$ 4,619,209	2035
Incremental Tax Revenue	2013 Redevelopment Note	\$ 490,008	\$ 99,279	20%	\$ 99,279	2023
Net Utility Revenues	State Revolving Fund Loan - 2009	\$ 6,238,095	\$ 457,343	7%	\$ 8,689,521	2041

Non-ad valorem revenues consist of local government half-cent sales tax, franchise fees, solid waste disposal fees, occupational license taxes, local communication services tax, guaranteed entitlement funds, utility tax, mobile home license fees, alcoholic beverages license fees, fines and forfeitures, licenses and permits, certain fees and charges, and surplus utility revenues.

#### Note 9 - Interfund Receivables, Payables, and Transfers

The following is a summary of interfund receivables and payables at September 30, 2022:

Receivable Fund	Payable Fund	 Amount
General Fund	Non-Major Governmental Funds	\$ 589,042
General Fund	Water Utility	235,663
Electric Utility	Water Utility	335,228
Electric Utility	Wastewater Utility	1,207,115
Water Utility	Wastewater Utility	40,347
Internal Service Fund	Water Utility	 215,065
Total		\$ 2,622,460

The outstanding balances between funds result from the time lag between the dates that: (1) interfund goods and services are provided, or reimbursable expenditures occur; (2) transactions are recorded in the accounting system; and (3) payments between funds are made. Additionally, certain interfund loans were made to fund deficit unrestricted equity in pooled cash. All outstanding interfund balances are reported as long-term advances as of September 30, 2022.

#### **Interfund Transfers:**

	Transfers In									
		Camanal		lon-Major						
Transfers (Out)		General Fund	Go	vernmental Funds	Total					
General Fund	\$	-	\$	1,248,809	\$	1,248,809				
Electric Utility		2,000,000				2,000,000				
Total	\$	2,000,000	\$	1,248,809	\$	3,248,809				

Transfers are normally recurring and are approved by the City commission during the budget process. A transfer in the amount of \$2,000,000 from the Electric Fund to the General Fund is in support of general government operations to the extent moneys are available after paying operating expenses and debt service on outstanding bonds. A transfer in the amount of \$1,248,809 from the General Fund to the Non-Major Governmental Funds is for debt service and the City's required portion of tax incremental funding, neighborhood revitalization, and additional funding for construction projects being completed by the CRA.

#### **Note 10 - Contingent Liabilities**

Amounts received or receivable for grants are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures or expenses that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various other lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the City.

#### **Note 11 - Restricted Net Position**

Net position is restricted within governmental activities as follows:

	Governmental <u>Activities</u>			
Law Enforcement	\$	22,033		
Physical Environment		226,198		
Economic Environment		797,631		
Human Services		1,000		
Parks and Recreation	<u></u>	20,831		
Total	\$	1,067,693		

The City's restricted net position includes \$582,737 restricted by enabling legislation.

#### Note 12 - Power Purchase Agreements

#### **City of Gainesville**

The City entered into a wholesale electric service contract with the City of Gainesville, Florida, on January 21, 1987, for the purchase of the majority of the City's electric power requirements beginning January 6, 1988. The City constructed a 138 x 69 - 12.47Y/7.2kV substation to receive the power, which was placed into operation on that date. The substation is located in such a manner that the City has reasonable access to the transmission lines of both the City of Gainesville and Duke Energy of Florida. A portion of the substation is owned by the City of Gainesville. The initial term of the contract was five years, with options for additional annual extensions. The contract was renegotiated on October 2, 1992, and extended for an additional fifteen years, beginning on December 31, 1992, with automatic extensions for succeeding periods of one year each. This contract was amended again on November 22, 2010, extending the contract for an initial ten-year term, with automatic extensions for up to three succeeding periods of one year each. Effective April 1, 2016, the City renewed its wholesale electric contract with the City of Gainesville. Provisions of the new agreement changed the pricing structure to a flat fifty-eight dollars per megawatt/hour. The City's purchased power agreement with the City of Gainesville ends on March 31, 2022. Total payments to the City of Gainesville for 2022 were \$3,558,534.

#### Florida Municipal Power Agency (FMPA)

Effective July 26, 2021, the City entered into an agreement for FMPA to provide wholesale electric service to the Legacy Substation Load commencing on April 1, 2022 through December 31, 2027. Total payments to FMPA for 2022 were \$2,370,246.

#### Florida Power & Light Company (FPL)

Effective July 26, 2021, the City entered into an agreement for FPL to provide wholesale electric service to the Legacy Substation Load commencing on April 1, 2022 through December 31, 2029. Total payments to FPL for 2022 were \$4,301,727.

#### St. Lucie No. 2 Power Purchase Agreement

The City has negotiated a long-term agreement with Florida Power and Light Corporation through FMPA to purchase 0.3044 megawatts of generating capacity and a corresponding amount of energy monthly from the St. Lucie No. 2 nuclear generating plant. The plant became operational in 1984. Total payments for 2022 were \$227,621.

#### **FMPA Solar Power Project**

Effective May 16, 2018, the City entered into a solar project power sales contact with FMPA. As a participant in the project, the City is entitled to receive nine megawatts of electric power generated by the project. The project is currently under construction and is expected to become commercially operational June 2023. Also effective May 16, 2018, the City entered into an agreement with FMPA for the repurchase of the City's solar project entitlement until March 31, 2022.

#### Note 13 - Defined Benefit Pension Plan

#### General Information About the Florida Retirement System (FRS)

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any state-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the City are eligible to enroll as members of the State-administered FRS. Provisions relating to FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112 Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer defined-benefit plans and other non-integrated programs. An annual comprehensive financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' website (www.dms.myflorida.com).

The City's pension expense totaled \$1,354,743 for the fiscal year ended September 30, 2022. This included \$1,242,918 of expenses related to the FRS Pension Plan and \$111,825 related to the Health Insurance Subsidy Plan (HIS).

#### **FRS Pension Plan**

<u>Plan Description</u>. The FRS Pension Plan (the Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership applicable to the City are as follows:

- Regular Class—Members of the FRS who do not qualify for membership in the other classes.
- Elected Officer Class—Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC)—Members in senior management level positions.
- Special Risk Class—Members who are employed in special risk careers, such as law enforcement or fire rescue, and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Members of the Plan may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

<u>Benefits Provided</u>. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	Percent Value
Regular Class Members Initially Enrolled Before July 1, 2011:	•
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class Members Initially Enrolled on or After July 1, 2011:	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68

Class, Initial Enrollment, and Retirement Age/Years of Service	Percent Value
Elected Officers	3.00
Senior Management Service Class	2.00
Special Risk Regular	
Service from December 1, 1970 through September 30, 1974	2.00
Service on and after October 1, 1974	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions</u>. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates for FRS during the City's 2021-22 fiscal year were as follows:

	Year Ended June 30, 2022  Percent of Gross Salary			June 30, 2023 Gross Salary
Class	<b>Employee</b>	Employer <sup>(1)</sup>	<b>Employee</b>	Employer <sup>(1)</sup>
Regular	3.00	9.10	3.00	10.19
Elected Officers	3.00	49.70	3.00	55.28
Senior Management				
Service	3.00	27.29	3.00	29.85
Special Risk Regular	3.00	24.17	3.00	26.11
DROP	N/A	16.68	N/A	16.94

<sup>(1)</sup> These rates include the normal cost and unfunded actuarial liability contributions but do not include the contribution for the Retiree Health Insurance Subsidiary of 1.66% and the fee of 0.06% for administration of the FRS Investment Plan and provision of education tools for both plans.

The City's contributions to the Plan totaled \$1,015,081 for the fiscal year ended September 30, 2022. This excludes the HIS defined benefit pension plan contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At September 30, 2022, the City reported a liability of \$8,851,077 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The City's proportionate share of the net pension liability was based on the City's contributions during the Plan's fiscal year relative to the contributions of all participating members in the same fiscal year. At June 30, 2022, the City's proportionate share increased .0006796170% from its proportion measured as of June 30, 2021.

At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred utflows of	(Deferred Inflows of	
<u>Description</u>	<u>F</u>	Resources	 Resources)	
Employer Contributions After Measurement Date	\$	238,405	\$	-
Difference Between Expected and Actual Experience		420,375		-
Changes of Assumptions		1,090,048		-
Changes in Proportion and Difference Between City's				
Contributions and Proportionate Share of Contributions		549,851		-
Net Difference Between Projected and Actual				
Earnings on Pension Plan Investments		584,435		
Total	\$	2,883,114	\$	

The deferred outflows of resources related to pensions, totaling \$238,405, resulting from the City's contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	
<u>Ending</u>	 Amount
2023	\$ 683,144
2024	345,797
2025	(32,847)
2026	1,552,058
2027	 96,557
Total	\$ 2.644.709

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

2.40%
3.25% Average, Including Inflation
6.70%
6.70%

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018.

The actuarial assumptions used in the July 1, 2022, valuation were based on the results of the actuarial experience study of the FRS for the period July 1, 2013 – June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

	Annual	Annual		
Asset	Target	Arithmetic	Geometric	Standard
Class	Allocation (1)	Return	Return	Deviation
Cash	1.0%	2.6%	2.6%	1.1%
Fixed Income	19.8%	4.4%	4.4%	3.2%
Global Equity	54.0%	8.8%	7.3%	17.8%
Real Estate	10.3%	7.4%	6.3%	15.7%
Private Equity	11.1%	12.0%	8.9%	26.3%
Strategic Investments	3.8%	6.2%	5.9%	7.8%
Total	100%			
Assumed Inflation – Mea	an		2.4%	1.3%

<sup>(1)</sup> As Outlined in the FRS Pension Plan's Investment Policy.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 6.70%. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate was 6.70% in the July 1, 2022, valuation.

<u>Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 6.70%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.70%) or 1-percentage-point higher (7.70%) than the current rate:

	Current						
		1%		Discount		1%	
	Decrease (5.70%)			Rate (6.70%)		Increase (7.70%)	
City's Proportionate Share of the Net Pension Liability	<u>\$</u>	15,307,329	\$	8,851,077	\$	3,452,882	

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

#### **HIS Pension Plan**

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

<u>Benefits Provided</u>. For the fiscal year ended September 30, 2022, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS-participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the Plan fiscal years ended June 30, 2022 and 2021, respectively the contribution rates were both 1.66% of payroll, pursuant to Section 112.363, Florida Statutes. The City contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The City's contributions to the HIS Plan totaled \$123,486 for the fiscal year ended September 30, 2022.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>. At September 30, 2022, the City reported a net pension liability of \$2,161,543 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The City's proportionate share of the net pension liability was based on the City's contributions during the Plan's fiscal year relative to the contributions of all participating members in the same fiscal year. At June 30, 2022, the City's proportionate share increased 0.0005573883% from its proportionate share measured as of June 30, 2021.

The City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description		eferred tflows of esources	Deferred Inflows of Resources		
Employer Contributions After Measurement Date	\$	28,431	\$	_	
Difference Between Expected and Actual					
Experience		65,608		9,511	
Changes of Assumptions		123,901		334,388	
Changes in Proportion and Difference Between					
City's Contributions and Proportionate Share of					
Contributions		181,043		-	
Net Difference between Projected and Actual					
Earnings on Pension Plan Investments		3,129		<u>-</u>	
Total	\$	402,112	\$	343,899	

The deferred outflows of resources related to pensions, totaling \$28,431, resulting from City contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year		
Ending	Amount	_
2023	\$ 14,324	1
2024	24,60	7
2025	27,985	5
2026	10,335	5
2027	(30,525	5)
Thereafter	(16,944	<u>1</u> )
Total	\$ 29,782	2

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.40%

Salary Increases 3.25% Average, Including Inflation

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

The actuarial assumptions used in the July 1, 2022, valuation were based on the results of the actuarial experience study of the FRS for the period July 1, 2013 – June 30, 2018.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.54%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

<u>Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 3.54%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.54%) or 1-percentage-point higher (4.54%) than the current rate:

	Current						
		1% Decrease (2.54%)		Discount Rate		1% Increase (4.54%)	
City de Duranautianata Chana		(2.54%)		(3.54%)		(4.54%)	
City's Proportionate Share of the Net Pension Liability	\$	2,472,983	\$	2,161,543	Ś	1,903,833	

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

#### **FRS - Defined Contribution Pension Plan**

The City contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. City employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Allocations to the investment members' accounts (employer and employee) during the 2021-22 fiscal year were as follows:

	Percent	
	of Gross	
Class	Compensation	
FRS, Regular	6.30%	
FRS, Elected County Officers	11.34%	
FRS, Senior Management Service	7.67%	
FRS, Special Risk Regular	14.00%	

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-Vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over their account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06% of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended September 30, 2022, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the City.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The City's Investment Plan expense totaled \$133,449 for the fiscal year ended September 30, 2022.

#### Note 14 - Other Postemployment Benefits (OPEB)

The City of Alachua's Retiree Health Care Plan (Plan) is a single-employer defined benefit postemployment heath care plan that covers eligible retired employees of the City. The Plan, which is administered by the City, allows employees who retire and meet retirement eligibility requirements under one of the City's retirement plans to continue medical, vision and dental insurance coverage as a participant in the City's Plan. For purposes of applying Paragraph 4 under GASB Statement No. 75, the Plan does not meet the requirements for an OPEB plan administered through a trust.

The City subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The City does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The authority for establishing and amending the funding policy rests with the City Commission. The OPEB Plan does not issue a stand-alone financial report.

Membership of the Plan consisted of the following:

Date of Actuarial Valuation	<u>September 30, 2021</u>	
Retirees and Beneficiaries Receiving Benefits	2	
Active Plan Members	126	
Total	128	

#### **Changes in the Total OPEB Plan Liability**

The following table shows the change in the City's OPEB Plan liability:

	Increase/ (Decrease) in Total	
	OPEB	
	Liability	
Reporting Period Ending September 30, 2021	\$	302,756
Changes for the Year:		
Service Cost		36,658
Interest		7,214
Differences Between Expected and Actual Experience		8,458
Changes of Assumptions		16,558
Benefit Payments		(4,591)
Net Changes		64,297
Reporting Period Ending September 30, 2022	\$	367,053

## CITY OF ALACHUA, FLORIDA NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2022

As of September 30, 2022, the total OPEB Plan liability was \$367,053, and assets held in trust were \$0, resulting in a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$6,488,066, and the ratio of the total OPEB Plan liability to the covered payroll was 5.66%. Covered Employee Payroll was projected one year forward from the valuation date of September 30, 2021 for the reporting period ended September 30, 2022.

#### **Actuarial Assumptions and Methods**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funding status of a plan and the annual required contributions of the employer are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future.

Demographic assumptions employed in the actuarial valuation were the same as those employed in the July 1, 2021, actuarial valuation of the Florida Retirements System (FRS) Benefit Pension Plan.

The mortality rates are mandated by Chapter 2015-157, Florida Statutes for pension plans. This law mandates the use of the assumptions used in either of the two most recent valuations of the FRS. The rates are those outlined in Milliman's July 1, 2021, FRS valuation report.

Healthcare inflation rates reflect recent healthcare trend rate surveys, blended with the long-term rates from the Getzen model published by the Society of Actuaries.

The discount rate used has been updated to utilize the mandated discount rate based on the 20-year Municipal Bond Rate as of the measurement date, as required under GASB Statement No. 75.

The valuation results were calculated using the Entry Age cost method. This is required cost method under GASB Statement Nos. 74 and 75 standards.

On September 30, 2022, the City reported Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB from the following sources:

		red Inflows Resources
\$ 7,400	\$	25,449
72,955		9,195
 20,306		
\$ 100,661	\$	34,644
	of Resources \$ 7,400 72,955 20,306	of Resources of F \$ 7,400 \$ 72,955 20,306

Amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB will be recognized in OPEB Expense as follows:

## CITY OF ALACHUA, FLORIDA NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2022

2024		6,858
2025		6,858
2026		6,858
2027		6,858
Thereafter		11,421
Total	\$	45.711

#### Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the Total OPEB Liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentagespoint higher than the current discount rate:

			Curr	ent Discount		
	19	% Decrease		Rate	1	% Increase
		1.43%		2.43%		3.43%
<b>Total OPEB Liability</b>	\$	398,131	\$	367,053	\$	338,104

#### Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the Total OPEB Liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher than the current healthcare cost trend rates:

			Н	ealthcare Cost	
	19	6 Decrease		Trend	1% Increase
	3.	00%-6.50%		4.00%-7.50%	5.00%-8.50%
<b>Total OPEB Liability</b>	\$	316,470	\$	367,053	\$ 428,733

#### Note 15 - Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City carries insurance. The City has not had any significant reduction in insurance coverage and the amounts of insurance settlements have not exceeded insurance coverage for any of the last three years. Insurance against losses is provided by Florida Municipal Investment Trust for the following types of risk:

#### **■** Florida Municipal Insurance Trust

- Workers' Compensation and Employer's Liability
- General Liability and Automobile Liability
- Real and Personal Property Damage
- Automobile Physical Damage
- Public Employees' Blanket Bond
- Boiler Officials' Liability
- Law Enforcement Officers' Professional Liability and Other Mandated Coverage
- Accidental Death and Dismemberment
- Auxiliary Reserve Policy

## CITY OF ALACHUA, FLORIDA NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2022

The City's coverage for workers' compensation is under a retrospectively related policy. Premiums are accrued based on the ultimate cost to date of the City's experience.

#### Note 16 - Commitments and Contingencies

As of September 30, 2022, the City had the following commitments related to significant unfinished projects:

	•	ended as of tember 30, 2022	 Remaining Commitment
Downtown Parking Lot	\$	474,030	\$ 530,366
Water Quality and Resiliency Improvements		341,422	143,578
16" Force Main Project		44,350	14,567
City Hall HVAC Replacement		58,572	18,703
LS 27 Generator		-	53,691
AWRF Reuse Storage Tank Rehabilitation		_	 62,000
Total	\$	918,374	\$ 822,905

The City utilizes encumbrance accounting in its governmental funds. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which a purchase order, contract, or other commitment is issued. Unexpended items at year-end must be reappropriated in the subsequent year.

In 2018, the City was awarded \$6,755,000 of Florida Job Growth funds from the Florida Department of Economic Development for the San Felasco Parkway Improvements Project. The funds come with certain return on investment criteria, including specified amounts of job creation and job retention, which must be met by the ten-year anniversary of the project's completion. Failure to meet any of the return on investment criteria could require the City to repay all or a portion of the awarded funds.

## CITY OF ALACHUA, FLORIDA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SEPTEMBER 30, 2022

#### Note 1 - Basis of Presentation

The budget was prepared on the modified accrual basis of accounting. The budget was adopted on a basis consistent with generally accepted accounting principles, except as noted below.

Expenditures were controlled at the department level. All annual appropriations lapse at year-end.

#### Note 2 - Legally Adopted Budgets

The City legally adopted budgets for all funds with activity during the year.

#### Note 3 - Pension Liability

#### A. Changes in Benefit Terms

There were no significant changes in benefit terms during the Pension Plan's fiscal year ended June 30, 2022 or 2021.

#### B. Changes in Assumption

■ FRS—In the July 1, 2014, actuarial valuation, the inflation rate assumption was decreased from 3.00% to 2.60%, the real payroll growth assumption was decreased from 1.00% to 0.65%, and the overall payroll growth rate assumption was decreased from 4.00% to 3.25%. The long-term expected rate of return decreased from 7.75% to 7.65%.

In the July 1, 2015, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 7.65% to 7.60%.

In the July 1, 2016, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 7.60% to 7.50%.

In the July 1, 2017, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 7.50% to 7.40%.

In the July 1, 2018, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 7.40% to 7.20%.

In the July 1, 2019, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 7.20% to 6.90%.

In the July 1, 2020, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 6.90 to 6.80%.

In the July 1, 2021, actuarial valuation, the maximum amortization period was decreased to 20 years for all current and future amortization bases.

In the July 1, 2022, actuarial valuation, the long-term expected rate of return, net of investment expense, decreased from 6.80% to 6.70%.

 HIS—In the July 1, 2014, actuarial valuation, the municipal rate used to determine total pension liability decreased from 4.63% to 4.29%.

## CITY OF ALACHUA, FLORIDA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SEPTEMBER 30, 2022

In the July 1, 2015, actuarial valuation, the municipal rate used to determine total pension liability decreased from 4.29% to 3.80%.

In the July 1, 2016, actuarial valuation, the municipal rate used to determine total pension liability decreased from 3.80% to 2.85%.

In the July 1, 2017, actuarial valuation, the municipal rate used to determine total pension liability increased from 2.85% to 3.58%.

In the July 1, 2018, actuarial valuation, the municipal rate used to determine total pension liability increased from 3.58% to 3.87%.

In the July 1, 2019, actuarial valuation, the municipal rate used to determine total pension liability decreased from 3.87% to 3.50%.

In the July 1, 2020, actuarial valuation, the municipal rate used to determine total pension liability decreased from 3.50% to 2.21%.

In the July 1, 2021, actuarial valuation, the municipal rate used to determine total pension liability decreased from 2.21% to 2.16%.

In the July 1, 2022, actuarial valuation, the municipal rate used to determine total pension liability increased from 2.16% to 3.54%, the demographic assumptions for the Special Risk class were updated to reflect plan changes due to HB007, HB689, and SB838, and the election assumption for vested terminated members was updated from 20% to 50% to reflect recent experience.

**COMBINING AND INDIVIDUAL FUND INFORMATION AND OTHER SUPPLEMENTARY INFORMATION** 

#### **DEBT SERVICE FUND**

The *Debt Service Fund* accounts for the resources accumulated and payments made for the principal and interest on long-term debt of government funds.

#### **SPECIAL REVENUE FUNDS**

The *Special Revenue Funds* are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

- Community Redevelopment Fund—is used to account for the expenditure of incremental tax funds contributed by Alachua County and the City for the CRA district.
- Wild Spaces Public Places Fund—is a special revenue fund used to account for the revenues and expenditures of the half-cent discretionary sales surtax for recreation activities.
- The Additional Court Costs Fund—is used to account for the revenues and expenditures of funds received from court costs assessed under Florida Statute 318.18(11)(d) for certain non-criminal traffic infractions. These revenues will be used to fund criminal justice education degree programs and training courses.
- The *Donations Fund*—is used to account for the revenues and expenditures of donated funds from private sources for the intended purpose designated by the donor.
- The *Police Explorers Fund*—is used to account for the revenues and expenditures of funds received from the Alachua Police Explorers Program.
- The *TK Basin Special Assessment Fund*—is used to account for the revenues and expenditures of funds received from a special assessment to property owners for stormwater maintenance services.
- The *Children's Trust Grant*—is used to account for the revenues and expenditures of funds received from the Children's Trust of Alachua County.
- The *Tree Bank Fund*—is used to account for revenues and expenditures related to violations of Ordinance 06-11. The revenue received will be used for tree mitigation related to development.

#### **CAPITAL PROJECT FUNDS**

The *Capital Project Funds* are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

- The San Felasco Conservation Corridor Fund—is used to account for improvements made to the San Felasco Corridor.
- The Heritage Oaks Improvement Fund—is used to account for expenditures for infrastructure improvements in the Heritage Oaks subdivision.
- *Mill Creek Sink Fund*—is used to account for grant revenues and capital expenditures from the Suwannee River Water Management District to ensure safe water recharge of the Florida aquifer.
- CDBG Economic Development—is used to account for grant revenues and capital expenditures for projects approved under the Community Development Block Grant Economic Development category.
- *CDBG Neighborhood Revitalization*—is used to account for grant revenues and capital expenditures for projects approved under the Community Development Block Grant Neighborhood Revitalization category.

#### STATISTICAL SECTION

(unaudited)

This part of the City of Alachua, Florida's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements and note disclosures says about the City's overall financial health.

Contents	_	Page
Financial	Trends Information	
	These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	79
Revenue	Capacity Information	
	These schedules contain information to help the reader assess the factors affecting the City's most significant local revenue source, which is property taxes.	89
Debt Cap	pacity Information	
	These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. The City has no legal debt margin, thus it is not reported in these schedules.	94
Demogra	phic and Economic Information	
	These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.	101
Operatin	g Information	
	These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.	104
Sources:	Unless otherwise noted, the information in these schedules is derived from the annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in 2003; schedules presenting government-wide information include information beginning in that year.

### Notes:

(1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and the businesses of Alachua. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.

(2) Ratio of assessed valuation of taxable property in overlapping unit to that within the City of Alachua.

## NOTES TO SCHEDULE OF STATE FINANCIAL ASSISTANCE PROJECTS CITY OF ALACHUA, FLORIDA

### Note 1 - General

The accompanying schedule of expenditures of state financial assistance projects presents the activity of all state financial assistance projects of the City of Alachua, Florida (the City).

The City reporting entity is defined in Note 1 to the City's basic financial statements for the year ended September 30, 2022. All state financial assistance received directly from state agencies, as well as state financial assistance passed through other governmental agencies, are included in the schedule.

### Note 2 - Basis of Accounting

The accompanying schedule of state financial assistance projects is presented using the same basis of accounting as the fund in which the grant is recorded, generally the accrual or modified accrual basis, as described in Note 1 to the City's financial statements.

### SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED SEPTEMBER 30, 2022 CITY OF ALACHUA, FLORIDA

### 1. Summary of Audit Results

### **Financial Statements**

I. Type of Audit Report Issued on Financial Statements

**Unmodified Opinion**

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

### **Report on Compliance for Each Major State Project**

### **Opinion on Each Major State Project**

We have audited the City of Alachua, Florida's, (the City) compliance with the types of compliance requirements described in the Department of Financial Services' State Projects *Compliance Supplement* that could have a direct and material effect on the City's major state projects for the year ended September 30, 2022. The City's major state projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City compiled, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state projects for the year ended September 30, 2022.

### **Basis for Opinion on Each Major State Project**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, *Rules of the Auditor General*. Our responsibilities under those standards and Chapter 10.550, *Rules of the Auditor General* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state project. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's state projects.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

### **Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material non-compliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Chapter 10.550, *Rules of the Auditor General* will always detect material non-compliance when it exists. The risk of not detecting material non-compliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Non-compliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major state project as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Chapter 10.550, *Rules of the Auditor General*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material non-compliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtaining an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over the compliance in accordance with Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions to prevent, or detect and correct, non-compliance with a type of compliance requirement of a state project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material non-compliance with a type of compliance requirement of a state project will not be

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Chapter 10.550, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Alachua, Florida (the City), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 29, 2023.

### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES – INVESTMENT OF PUBLIC FUNDS

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

We have examined the City of Alachua, Florida's (the City) compliance with Section 218.415, Florida Statutes, during the fiscal year ended September 30, 2022. City management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material non-compliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination of the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2022.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the City Commissioners, and management and is not intended to be and should not be used by anyone other than these specified parties.

#### MANAGEMENT LETTER

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

### **Report on the Financial Statements**

We have audited the financial statements of the City of Alachua, Florida (the City) as of and for the fiscal year ended September 30, 2022, and have issued our report thereon dated March 29, 2023.

### **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, *Rules of the Auditor General*.

### **Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major State Project and Report on Internal Control Over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with the American Institute of Certified Public Accountants Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated March 29, 2023, should be considered in conjunction with this management letter.

### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no such findings in the preceding audit report.

### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. These disclosures can be found in Note 1 to the financial statements.

### **Financial Condition and Management**

■ Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

### CERTIFIED PUBLIC ACCOUNTANTS

Gainesville | Ocala | Tallahassee | Sarasota | Orlando | Lakeland | Tampa purvisgray.com

Honorable Mayor, City Commissioners, and City Manager Alachua, Florida

### **MANAGEMENT LETTER**

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

■ Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

### **Special District Component Units**

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

### **Specific Information**

The required reporting items in accordance with Section 218.39(3)(c), Florida Statutes for the City of Alachua Community Redevelopment Agency (the CRA) have been reported in the separately-issued audited financial statements of the CRA.

### **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate non-compliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the City Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

We wish to take this opportunity to thank you and your staff for the cooperation and courtesies extended to us during the course of our audit. Please let us know if you have any questions or comments concerning this letter, our accompanying reports, or other matters.
